**CAT**  
LET'S DO THE WORK.®

# WHAT CUSTOMERS ASKED FOR

CUSTOMERS ASKED US TO REWRITE THE RULES WHEN IT CAME TO DESIGNING THE CAT® MINI EXCAVATOR RANGE. THEY TOLD US:

- **I need even more performance –**  
I want to choose machines that provide maximum performance, particularly with attachments
- **I want a better experience as an operator –**  
I want a more comfortable, better-connected place to work
- **I want the best owning and operating costs –**  
I want to reduce fuel, service and maintenance costs

# WHAT WE DELIVERED

**“HANDS DOWN  
A MUCH BETTER  
MACHINE.”**

# THE GENERATION OF EXCELLENCE

**TO DO YOUR BEST WORK, YOU NEED A COMFORTABLE MACHINE**  
**THE NEXT GENERATION OF CAT MINI EXCAVATORS WAS DESIGNED WITH YOU IN MIND.**

These high-performance machines are not only affordable, but they boost improved servicing, comfort and control.

## COMFORT AND CONTROL

Putting the control in your stands, stick steer and cruise control make positioning and traveling in your excavator easy. Operator and attachment settings can be customized using the monitor to suit the task at hand. You can also choose to start the machine with the push of a button with an optional Bluetooth-enabled key.

## AFFORDABLE

Productive and affordable Next Generation Cat Mini Excavators offer lower owning and operating costs. Now you can spend less time and money on servicing, repairs and fuel. Common service parts across certain models and longer service intervals mean less downtime and more productive hours on the job site.

## HIGH PERFORMANCE

Multifunctional and versatile, all mini excavator models are best in class with their increased efficiency and performance with greater digging, lifting and swing capacity.

## NO-HASSLE SERVICING WITH TILT-UP CAB (ON SELECT MODELS)

Servicing and repairs are easy thanks to improved access with routine checkpoints at ground level through side doors and a tilt-up cab or canopy on 1.5-3.5 ton models. Servicing time on all Next Generation Cat Mini Excavators is reduced giving you more time to get the job done.

# STICK STEER

Stick steer control makes long days easier and so much more comfortable.

## POWER IN YOUR HANDS

Moving around the job site is even easier with the Cat stick steer option. Easily switch from traditional travel controls with levers and pedals to joystick controls with the push of a button. You can control the machine just like a skid steer loader using the left-hand joystick. With the right-hand joystick, you can control the dozer blade, or the boom and stick function.

# AIR-CONDITIONED CAB

Work in luxury through the long, hot days when you choose the option of cool, clean air conditioning.

## STAY COOL

You can control the air conditioner and the heating through the LCD monitor to ensure your cab is comfortable. Air conditioning is offered as an option on all Next Generation Cat Mini Excavator cab machine models.

## STAY CLEAN AND DUST-FREE

The sealed and pressurized cab design keeps dust out and clean air in for an improved operator environment.

# CRUISE CONTROL

When in stick steer mode, choose cruise control to travel in comfort.

## TRAVEL IN STYLE

Stick steer and cruise control are standard features offered on all Next Generation Cat Mini Excavator models. You can set the cruise control by pressing a trigger underneath the joystick – perfect for moving the machine across a large open site. You no longer have to put up with backache at the end of the day from hunching over levers.

# LCD MONITOR

Customize your settings, receive calls and stream music all in one place.

## TOTAL CONTROL

Adjust your settings, such as hydraulic speed, to suit the task in hand. You can also receive calls through the monitor, and adjust the temperature in the cab. Bluetooth means you can take calls, hands-free.

## OPTIONAL ADVANCED TOUCH SCREEN MONITOR

Full eight-inch touch screen display with high-definition graphics and integrated Site Reference System gives you pitch and roll of the machine chassis.

# ONE DO-IT-ALL MACHINE

**ROD HENRY RELIES ON HIS  
CAT® 306 CR TO DO SOME  
HEAVY WORK IN SMALL SPACES.**

**ROD HENRY CONSTRUCTION (RHC) IS A FAMILY-OWNED BUSINESS THAT SPECIALIZES IN THE INSTALLATION OF AEROBIC SYSTEMS, SEPTIC SYSTEMS AND STORM SHELTERS IN OOLOGAH, OKLAHOMA, USA. THIS TYPE OF WORK REQUIRES HIGH PERFORMANCE AND VERSATILITY IN TIGHT QUARTERS. THEY TURNED TO THE CAT 306 CR MINI EXCAVATOR.**

### **CLASS-LEADING LIFT CAPACITY**

Offering big performance, the Cat 306 CR delivers class-leading lift performance of up to 8,181 lb (3,710 kg) at a 9.8-ft (3-m) radius. Enhanced uphill swing torque and reduced cycle times provide greater productivity and efficiency for RHC's operation.

### **IMPROVED CONTROL IS IN YOUR HANDS**

Rod is able to easily switch from conventional lever/foot-pedal steering controls to the Cat exclusive stick steer system with the push of a button.

"Stick steer is awesome. I can haul it around easily."

### **STRETCH OUT IN A ROOMIER CAB**

As a nimble family-owned operation, Rod wants his operators to be comfortable in the cab all day long. The sealed and pressurized cabin lowers in-cab operating noise levels to 72 dB(A) and is heated and air-conditioned to elevate comfort regardless of outside temperatures.

"There's so much room in the cab, which makes the visibility better. It's also airtight and quiet."

### **DO MORE WITH LESS**

RHC was able to reduce the number of machines on site with the quick coupler system, which allows for work tool changes in a matter of seconds.

"The quick coupler is amazing. Previously, I would have had to bring out two machines."

Straight blade, angle blade and extra tool carrier (XTC) configurations further expand the flexibility of the Cat 306 CR Mini Excavator.

### **FEEL SUPPORTED**

Cat dealers can deliver maintenance services that keep a fleet in good condition, along with a Customer Value Agreement (CVA) which offers hassle-free business plans customized to your business needs to help you get the most from your equipment and maximize your investment.

"My Cat dealer has been phenomenal. It doesn't matter where I am, my salesman will bring me a tube of grease if I call and ask him."
