

CAT® RECYCLING AND WASTE SOLUTIONS

D7 MEDIUM DOZER

265 HP
Net Power

65,644 lb
Operating Weight

The broadest range of Cat® Grade technology offers up to **50%** more productivity

Move up to **8%** more material per hour with bigger blades and a 4-speed transmission

CAT
LET'S DO THE WORK.™

TRANSFER STATIONS

Visibility, reliability, maneuverability and flexibility are all key elements of any machine working in a transfer station. Wheel loaders like the **Cat® 950M** are specifically designed for stockpiling and truck loading while withstanding the harshest conditions.

Up to **10%** fuel efficiency increase

Up to **15%** lower maintenance costs

Next-gen operator-friendly design

ATTACHMENTS

• High Dump Bucket • High Capacity Low Material Density Waste Bucket • Push and Doze Bucket • Tamp and Clamp Bucket • G300 Series Sorting Grapple • GSH Series Orange Peel Grapple • GSV Orange Peel Grapple

MACHINES USED IN THIS APPLICATION

COMPACT/SMALL/MEDIUM WHEEL LOADERS:
920, 938M, 950M, 962M, 966, 972

MATERIAL HANDLERS:
MH3022, MH3024, MH3026

TRACK LOADERS:
953, 963, 973K

SMALL TRACK AND WHEELED EXCAVATORS

SORTING AND RECYCLING

Fast, maneuverable and durable equipment is necessary to keep sorting and recycling operations flowing. The **Cat® MH3024** material handler is fully adapted to a wide range of working conditions as well as a variety of material densities.

Up to **7%** more swing torque

Up to **10%** lower operating costs

360° machine view

ATTACHMENTS

- High Dump Bucket
- High Capacity Low Material Density Waste Bucket
- Utility Grapple Bucket, Fusion™ Coupler
- Push and Doze Bucket
- Tamp and Clamp Bucket
- G300 Series Sorting Grapple
- Angle Broom and Sweeper Collector
- GSH Series Orange Peel Grapple
- GSV Orange Peel Grapple
- Carriage and Pallet Forks
- Woodchip Bucket

MACHINES USED IN THIS APPLICATION

COMPACT/SMALL/MEDIUM WHEEL LOADERS:
920, 938M, 950M, 962M, 966, 972

MATERIAL HANDLERS:
MH3022, MH3024, MH3026

TRACK LOADERS:
953, 963, 973K

SMALL TRACK AND WHEELED EXCAVATORS

ATTACHMENTS

- High Dump Bucket
- High Capacity Low Material Density Waste Bucket
- G300 Series Sorting Grapple
- Angle Broom and Sweeper Collector
- Clamshell Bucket

MACHINES USED IN THIS APPLICATION

MINI EXCAVATORS:
304, 305E2 CR, 305.5E2 CR
307.5, 308 CR VAB, 310

TELEHANDLERS:
TH357D, TH408D

TRACK LOADERS:
953, 963, 973K

SKID STEER LOADERS:
226D3, 232D3, 236D3, 242D3,
246D3, 262D3, 272D3

WHEEL LOADERS:
938M, 950M, 966, 972, 980, 982

GREEN WASTE AND COMPOSTING

The need for composting is expanding, and transforming green waste to compost requires a lot of material re-handling. Wheel loaders such as the **Cat® 938M** offer refined control and quick loading performance while burning less fuel.

30% lower engine speed for reduced fuel burn

Class-leading **68 dB(A)** sound level

Increased control for consistent, predictable stopping distances

LANDFILL

There has never been more pressure to produce greater compaction and capacity ratios per ton per day. **Cat® landfill compactors** deliver field-proven protection and integrated technology to optimize landfill performance.

Improved guarding against damage, debris and chemicals

Enhanced operator comfort from quiet steering, new seat and adjustable controls

Up to **12%** less maintenance

ATTACHMENTS

- All Purpose Bucket
- Waste Handling Bucket,
- G300 Series Sorting Grapple
- Articulated Dump Truck Bulk Ejector
- Straight Blade
- Semi U-Blade
- U-Blade

MACHINES USED IN THIS APPLICATION

LANDFILL COMPACTORS:
816, 826K, 836K

TRACK LOADERS:
953, 963, 973K

SMALL TRACK AND WHEELED EXCAVATORS

MEDIUM DOZERS:
D5, D6, D6 XE, D7, D8T

ARTICULATED TRUCKS:
725, 730, 730EJ, 735, 740GC, 740EJ, 745

ENERGY FROM WASTE

Our longstanding commitment to sustainability inspires us to improve the quality of the environment and the communities where we live and work.

Caterpillar has delivered thousands of generator sets fueled by landfill gas, which then convert these gases into valuable electricity and heat. These efforts have generated 1,600 MW of renewable electricity worldwide – enough energy to power 600,000 homes.

By using elevated jacket water temperatures, specialized exhaust valves and stainless steel aftercooler cores, these generator sets help combat the presence of contaminants in waste-generated gas to ensure durability and reduce operating costs.

ATTACHMENTS

ALL PURPOSE BUCKET
Designed for loading, carrying, stockpiling and backfilling.

ANGLE BROOM & SWEEPER COLLECTOR
Ideal for cleaning working area to remove debris that can damage tires.

ARTICULATED DUMP TRUCK BULK EJECTOR
Ejector body offers clean load ejection on-the-go with capability to work in low overhead clearance and soft underfoot conditions.

CARRIAGE & PALLET FORK
Pallet forks are ideal for moving waste skips/containers and palletized material.

CLAMSHELL BUCKET
Ideal for loading loose, small particulate green waste and composted material.

FUSION™ COUPLER
With a fusion coupler, attachment offset is minimal, increasing machine performance.

GSH SERIES ORANGE PEEL GRAPPLE
Ideal for loading into high-sided lorries and freight train carriages.

GSV ORANGE PEEL GRAPPLE
Orange peel grapple is designed for handling large amounts of waste.

G300 SERIES SORTING GRAPPLE
The bidirectional 360 degree rotation gives optimum maneuverability in every direction.

HIGH CAPACITY LOW MATERIAL DENSITY WASTE BUCKET
Waste Handling Buckets move large volumes of low-density waste in transfer stations.

HIGH DUMP BUCKET
Utilize dumping cylinders and a bottom hinge to "roll out" material.

PUSH AND DOZE BUCKET
Available with rubber and steel cutting edges, this bucket is designed to push waste.

SEMI U-BLADE
Equipped with a trash rack, it combines the dozing benefits of the straight blade with the additional capacity and control of the U-blade.

STRAIGHT BLADE
An ideal landfill blade equipped with a trash guard that offers good visibility and additional capacity.

TAMP AND CLAMP BUCKET
Also known as a waste handler, this bucket is ideal for full separation loading, picking, sorting and tamping.

U-BLADE
Designed with angled ends for carrying and controlling waste over longer distances.

UTILITY GRAPPLE BUCKET
Twin top clamps hold down paper, refuse and other loose material.

WASTE HANDLING BUCKET
For moving large volumes of low-density waste in transfer stations, landfills and recycling yards.

WOODCHIP BUCKET
A flat floor and straight-edge scoop the bucket full and help heap the load high.

CAT® WASTE HANDLING FEATURES

GENERAL/ALL PRODUCTS

Pressurized Cabin Air Filtration

Increases cabin air pressure to keep dust out and provide additional air filtration.

Variable Pitch/Reverse Fan

Allows waste elements to be blown away automatically or on demand.

Cat Turbine Pre-Cleaner

Extends filter life with less restriction for better engine performance.

Rearview Camera

Allows operator to see behind machine from a cab-mounted display.

LANDFILL COMPACTORS/SMALL DOZERS/TRACK LOADERS

Powershift Transmission

Uses steel-on-steel components to optimize power transfer.

Built-in Protection

For vital components such as axles, engine, transmission, cab, tanks, radiators and seals.

Striker Bars

Cleaner fingers to keep the wheels/tracks clean from trash and cover material.

Easy Access

Effortless radiator access.

Cab Door Screens

Protect glass doors from debris and provide good visibility to the blade.

Various Undercarriage Options

For the best flotation and traction.

WHEEL LOADERS

Trelleborg Brawler Tires*

Brawler™ HPS tires are designed with a durable cut-resistant compound and wide multi-step tread.

Waste Guarding

- Lift Cylinder Baffles
- Narrow Steel Front Fenders
- Hitch and Steering Cylinder Guards
- Belly Guards
- Axle Seal Guards
- Light Guards
- Radiator Grille Guards
- Window Guards

MINI EXCAVATORS

Waste Guarding

- Light Guards
- Radiator Grill Guards
- Window Guards

CAT COMPACTION TECHNOLOGY

- Maximizes airspace utilization
- Improves grade/slope control
- Tracks number of passes on working face
- Creates a safer environment

*Brawler tires may not be available in some areas. Ask your local dealer for more information.
