903D, 906-908

Current machines listed. Machine model availability and attachment vary by region.
Contact your local Cat® dealer for exact compatibility and availability.

Cat® stump buckets are specifically designed for stump removal. The long narrow design allows operators to dig closely around and underneath the root ball of the stump for quick and easy removal. Applications include land clearing, landscaping, and property maintenance.

FEATURES

SERRATED EDGES

Serrated bucket edges are designed to cut through roots.

BUCKET DRAIN HOLES

Holes in the bottom of the bucket prevents water from collecting when the bucket is stored.

ACCESS STEPS AND INTEGRATED CHAIN LOOPS

Serrated access steps allow for safer access when entering or exiting the cab. Integrated chain loops provide a way to secure large stumps once they are removed.

REPLACEABLE TEETH (DRS230)

Replaceable teeth that can be changed to best suit the working environment.
