Best Value for Heavy-Duty Applications

Cat[®] Heavy Duty (HD) Batteries

Durability

- HD batteries stand up to high vibration applications ensuring you get the maximum life from your battery
- HD batteries last 3 times longer than conventional batteries

Rechargeability

- Quickest recovery, ensures you can get back up and running in the shortest amount of time

Starting Ability

- Ensures your equipment starts and is ready to go when you are, even in extreme temperature conditions

Recommended Applications

- Cat[®] equipment
- Non-Cat branded equipment (where applicable)
- Cat powered OEM equipment

Best Value for Less Crucial, Light-Duty Applications

Cat[®] General Duty (GD) Batteries

Durability & Reliability

- Longer life and better performance than many alternative battery brands

Quality

- Designed for less severe applications but still backed by the Cat brand and performance guarantee

Recommended Applications

- Non-Cat branded equipment & fleet
 - > Light duty commercial vehicles
 - > Automotive
 - > Industrial
 - > Agricultural
 - > Marine
 - > Recreational

Options for your fleet.

Both the HD and GD battery lines are available in a wide range of industry standard sizes to meet your fleet needs. Consult your local Cat[®] dealer for help identifying the correct battery for your application.
