

WHO WE ARE

We are the makers, problem solvers and future world builders who are creating stronger, more sustainable communities. We don't just talk about progress and innovation here – we make it happen, with our customers, where we work and live. Together, we are building a better world, so we can all enjoy living in it.

The Large Power Systems' Pontiac, Illinois, facility has been a part of the community since 1978. It is the global source for new engine systems for fuel, air, after-treatment and cooling.

OUR PEOPLE

We have 1,300 employees who operate with precision and flexibility to achieve the market's needs.

OUR PRODUCTS

Components from Pontiac go into several different models of Cat, Perkins and MaK engines, which serve owners of Cat machines worldwide. We supply stand-by power generation for data centers, hospitals, oil and gas rigs, rail and marine and industrial power systems. These components are also used to rebuild various engine models and give them a second/third life at our global remanufacturing facilities. The Caterpillar Pontiac Facility also provides machining, assembly, heat treat, cut, bend and weld products for Engine Fuel Systems and Aftertreatment. This consists of fuel injectors and many of the components in our injectors, fuel pumps and Aftertreatment products.

COMMUNITY IMPACT

We believe that everything we do makes an impact and helps build a better world. Through our long-standing commitment to our community, we:

- Provide opportunities for every junior high student in Livingston County to participate in a STEM experience through the Challenger Learning Center at Heartland Community College.
- Award grants to the Boys & Girls Club, Futures Unlimited and other local organizations through the Caterpillar Foundation.
- We host an annual Scoring FORE scholarships golf outing right here in Pontiac to fund eight full-ride scholarships to Heartland Community College. Since its start in 2006, the annual golf outing has raised more than \$525,000 and has granted over 190 semester scholarships to Livingston County residents. In addition, the funds raised are also making it possible for every junior high student in Livingston County to experience a Challenger Learning Center mission on the campus of Heartland Community College. Over 1,000 students will fieldtrip to Challenger Learning Center to inspire interest in STEM-related learning, responsibility, teamwork and problem solving.

AT CATERPILLAR

- We are an inclusive, values-based company that never forgets we're all human.
- We hold ourselves accountable and treat each other with integrity and respect.
- We put safety first in everything we do, including creating safe workspaces strengthened by empathy and respectful interactions.

COMMUNITY IMPACT (Cont)

- We completed our annual United Way campaign this past August. Our employees pledged more than \$60,000 during this year's campaign, which when factored in our Caterpillar Foundation match provides approximately \$121,000 for the local communities where our employees work and live.
- Speaking of the Caterpillar Foundation, we are also proud to announce that the Caterpillar Foundation has awarded grants to the Boys & Girls Club, Futures Unlimited and other local organizations over the past few years.
