

Welcome  
Mapleton Foundry

# MAPLETON

## WHO WE ARE

We are the makers, problem solvers and future world builders who are creating stronger, more sustainable communities. We don't just talk about progress and innovation here – we make it happen, with our customers, where we work and live. Together, we are building a better world, so we can all enjoy living in it.

Our Mapleton, Illinois plant opened in 1979 as one of the largest foundries in the United States and houses the Cat Micro-foundry with 3D printing capability for low volume parts. Our facility is over 1 million square feet on a 440-acre campus.

## OUR PEOPLE

Our Mapleton team includes 1,000 employees and experienced contract workers from the Large Power Systems Division and Product Support and Logistics Division Seal Ring Foundries. Our Caterpillar Precision Seals employees cast, grind and finish more than 300,000 seal groups annually, ranging in diameter from 2" up to 37" for Caterpillar, Original Equipment Manufacturers (OEMs) and defense industry customers all over the world.

## OUR PRODUCTS

The Mapleton facility can melt up to 1,000 tons of iron daily to produce products that include:

- C175, 3500 and 3600 engine platforms
- Cylinder heads, liners, flywheel housings, and engine attachments
- Cat Seals (Duo Cone™ and Heavy-Duty Dual Face) ranging in sizes from 3" to 37"

## COMMUNITY IMPACT

We believe that everything we do makes an impact and helps build a better world. Through our long-standing commitment to our community, we:

- Participate in the annual Caterpillar United Way campaign
- Support the Employee Coalition, which plans various activities throughout the year such as toy drives, food drives and more to benefit the local community.
- Volunteer events including: Camp Big Sky, S.A.M.S., Habitat for Humanity and more.

## AT CATERPILLAR

- We are an inclusive, values-based company that never forgets we're all human.
- We hold ourselves accountable and treat each other with integrity and respect.
- We put safety first in everything we do, including creating safe workspaces strengthened by empathy and respectful interactions.
