

CAT® INJECTORS

**“I BUY CAT PARTS FOR
THEIR DURABILITY AND
THE WARRANTY.”**

– CAT PARTS CUSTOMER

**CHOOSE THE POWER TO
EARN MORE & SAVE MORE**

Today's engines rely on precision to deliver top performance. Both new and Cat® Reman injectors are made specifically for your Cat engine and the machine it powers. Make the choice to earn more and save more.

THREE WAYS INJECTORS DELIVER THE POWER TO EARN MORE:

ULTIMATE ENGINE PROTECTION

Because all Cat injectors are made to Cat engine specifications, they deliver top performance and longer life than competitive injectors. Because they optimize fuel efficiency, they also ensure compliant emissions. Both new and Cat Reman injector warranties cover resultant damage should the injector fail.*

UP TO 3X LIFE EXPECTANCY

Cat injectors are hard-coated components that deliver up to 3X the life expectancy of non-coated parts. Coating protects injectors from excessive wear and dirty fuel erosion, the leading cause of injector failures.

PROVEN PERFORMANCE

You can count on the proven quality of Cat injectors. Testing and competitive analysis confirm that Cat injectors outperform 85% of comparable competitive injectors. Many competitors don't match Cat engine specs, which means you lose performance and wear life — and that's less money in your pocket.

Contact us to talk about how you can be sure your injectors aren't taking away from your bottom line.

*Limitations may apply, for complete details about the applicable Caterpillar Limited Warranty, contact an authorized Cat dealer

CHOOSING CAT FILTERS AND FLUIDS ADDS EVEN MORE VALUE

Cat filters and fluids are designed and manufactured to reduce engine wear and protect your bottom line. Lab results revealed that using Cat filters:

- Lowered filter cost per hour by **up to 80%**
- Resulted in **3X fewer** fuel injector leaks
- Extended **up to 45%** longer fuel injector life

A customer field study confirmed 41% longer injector life using Cat filters. It costs a lot more to replace an injector than to use the right filters!

CAT REMAN INJECTORS: ADDED PROTECTION FOR YOUR BOTTOM LINE

Want to lower your repair cost? Cat Reman engines and components are made with a unique, proprietary process that returns them to the latest OEM specifications, including the most current technical specs. Manufactured under stringent conditions and strict quality controls, Cat Reman parts are backed by the same-as-new Caterpillar Parts Warranty.

Cat Reman injectors help you control costs and work with confidence.
