

PROTECT YOUR TRUCK ENGINE

(U.S. and Canada only)

Caterpillar has your back every mile, with a range of extended protection options for your Cat® on-highway truck engine. Authorized Cat dealers can cover individual components, help you protect your investment in an overhaul and extend your coverage to make sure you always take the road with peace of mind.

Extended Service Coverage (ESC) gives you protection against unexpected repair bills and rising parts and labor costs and is a great way to hedge your future repair costs against inflation. It covers the cost of parts and labor on not just the covered parts that fail, but also any resultant damage to other Cat parts. And because all ESC options are transferable at no additional cost, it may increase the resale value of your engine. We offer a broad range of coverage options available to meet your needs.

**HEDGE AGAINST
INCREASED LABOR COSTS**

**48 MONTHS OF COVERAGE
WITH NO MILEAGE
OR HOUR LIMIT**
