

# CAT® REPAIR KITS

## CAT SEALS AND FASTENERS KITS

**TACKLE REPAIRS ON THE GO, REDUCE DOWNTIME, AND KEEP YOUR MACHINE RUNNING WITH CAT SEALS AND FASTENERS GENERAL-USE KITS.**

Have the right parts conveniently available for your next repair. Each kit holds the most common seals and fasteners for all Cat and other brands of equipment. Stock up and have them ready to go when you need them — no waiting for an order to arrive, no extra trips to the store.

## BENEFITS

### EFFICIENCY

Common seals and fasteners are included and ready to use when you need them.

### RELIABILITY

Long-lasting, proven material performance eliminates leaks and early-hour failures.

Cat seals provide a high sealing force that prevents leaks that can lead to expensive repairs, downtime, and fines.

### VERSATILITY

Cat seals are made with custom tooling owned by Caterpillar to fit every Cat machine in your fleet precisely. We also have industry standard o-ring seals that will fit other OEM's.

### TECHNOLOGY

High-quality metals make Cat fasteners resistant to rust, resulting in longer life, fewer premature failures, and easier maintenance.

Cat fasteners prevent loose joints and breakage, even under heavy loads.

### TRANSPORTATION

Each kit is suitable on the go and holds the most common seals or fasteners used on all the equipment in your fleet — Cat and other brands.

## PRODUCT FEATURES

Cat seals and fasteners are engineered to perform better than the competition by providing greater resistance to deterioration and failure while maintaining a superior sealing force.\* They play a vital role in helping prevent fluid contamination.

### + PERFORMANCE

Cat seals and fasteners are created for the most demanding applications.

### + DURABILITY

Genuine Cat seals and fasteners are made stronger to last longer in your Cat equipment and across your entire fleet.

Meet or exceed industry standards.

\* As tested against three competitor brands

# CAT SEALS AND FASTENERS KITS

## WHY IT WORKS

Approximately 70% of the fasteners or seals used on the specific machines are included in the kits in the table.
