

GROUND FORCE WORLDWIDE

WATER PULL

Overview

Ground Force Worldwide designs and builds a diverse line of open pit mine support equipment. Headquartered in Post Falls, Idaho, their global operation spans four factories in North America, South America, Kazakhstan and India. They have trucks operating in more than 70 countries worldwide.

Ground Force Worldwide trucks are sold, serviced, and supported through Cat® dealers globally.

WATER PULL

Ground Force Worldwide (GFW) Water Pulls are built to suit the customer's needs and provide the best solution for the application. These tanks are designed for carrying a large volume of water for more efficient spraying. They are engineered with state-of-the-art baffling system and internal structure for maximum stability.

The water pulls can be designed to meet specific application needs and are available with a range of options, including the GFW Water Control System (WCS).

The water pull trucks are available based on the Cat 613 through 637 Wheel Tractor-Scraper. Capacities range from 5,000 to 12,000 gallons (18 927 to 45 242 liters).

CAT® MODEL COMPATIBILITY:
» Cat 613 through 637 Wheel Tractor-Scraper

OEM CONTENT:
» Water tank
» GFWW Water control system (WCS)
