

GROUND FORCE WORLDWIDE

WATER TRUCKS

Overview

Ground Force Worldwide designs and builds a diverse line of open pit mine support equipment. Headquartered in Post Falls, Idaho, their global operation spans four factories in North America, South America, Kazakhstan and India. They have trucks operating in more than 70 countries worldwide.

Ground Force Worldwide trucks are sold, serviced, and supported through Cat® dealers globally.

WATER TRUCK

Ground Force Worldwide (GFW) water tanks are designed for rigid frame and articulated chassis for the mining and construction industries, making them ideal for dust suppression and fire-fighting.

These tanks are designed to achieve a low center of gravity and include a state-of-the-art baffling system and internal structure for maximum stability. The water trucks can be designed to meet specific application needs and are available with a range of options, including the GFW Water Control System (WCS). Ground Force WCS is interchangeable with the Ground Force rock spreader truck for the off season.

The rigid frame water trucks are based on Cat Off-Highway Truck Bare Chassis ranging from models 770 to 793.
Capacities range from 9,000 to 52,000 gallons (34 068 to 196 841 liters).

The articulated water trucks are based on Cat Articulated Truck Bare Chassis ranging from models 725 to 745.
Capacities range from 5,000 to 8,000 gallons (18 927 to 30 283 liters).

Water pull trucks are also available based on the Cat 613 through 637 Wheel Tractor-Scraper.
Capacities range from 5,000 to 10,000 gallons (18 927 to 37 854 liters).

CAT® MODEL COMPATIBILITY:

- Cat 770 through 793 Off-Highway Truck Bare Chassis
- Cat 725 through 745 Articulated Truck Bare Chassis
- Cat 613 through 637 Wheel Tractor-Scraper
- OPTIONAL: Cat Water Delivery System for Cat 777, 785D, 785 (04), 789D, and 789 (04) Off-Highway Truck Bare Chassis
