

Caterpillar Motoren Filter Candles and Elements

Genuine Parts

Protect your engine

Lubricating oil is like the blood stream of an engine, taking care of it, keeping it clean, staying healthy is important.

The perfect operation of your engine requires a high degree of fuel and lubricating oil purity. This is ensured by our high-quality filter candles and elements.

Our filter candles and elements are Original Equipment Manufacturer (OEM) tested, manufactured with high precision and made of premium material. They are used in ships, power plants, and in many dual fuel or gas applications.

Introduction

For engineers, designers, architects, builders, insurers, vessel owners and crews, medium-speed engines (MSE) of the Cat® and MaK™ brands mean outstanding reliability and performance. But how do we ensure maximum uptime and productivity? Well, the answer lies in the details.

Details like MaK filter candles and elements.

Design and manufacturing techniques are continuously improved to ensure that using original parts enhances engine performance, reliability and reduces overall owning and operating cost – benefits you may not get from competitive parts.

Protect the environment

Filtration guarantees:

- That impurities are removed and therefore improve engine efficiency and save natural resources
- The reduction in oil contamination, keeping your engine cool and increase viscosity
- That foreign particles are trapped, there is less chance of filter failure and fuel bypass is avoided

Faster. Less Expensive. Damage-Free parts.

All of our genuine parts are easily available via network of dealers

All spare parts are delivered through our distribution center near the major international port of Hamburg. With its close proximity to both the international airport and the port infrastructure in Hamburg, the logistics center makes parts available quickly.

In the event a part is not immediately available in our dealers inventory, it will be dispatched from the Caterpillar Motoren distribution center within 24 hours.

Parts are optimally packed to ensure protection from damage. We maintain close contacts with logistic partners worldwide who specialize in ground, air, and sea transport, so that each shipment is collected and dispatched as efficiently as possible.

Your Benefits

- Protects the product from damage
- Reusable packaging for a second life
- New packaging for optimal storage
- Standard Caterpillar Motoren warranty
