## GET LIKE NEW PERFORMANCE

Throughout the remanufacturing process, we enable Cat Reman hydraulic pumps and motors to provide like new performance by:

- Completely disassembling, cleaning and inspecting each component to maintain quality and durability
- Remanufacturing or replacing components with new bearing surfaces as well as polishing viable shafts
- Replacing all soft components with 100% new components
- Installing 100% new bushings and machining components to the latest engineering specifications
- Qualifying vanes, vane pump rotors and cams to the latest engineering specifications or replacing with new components
- Remanufacturing all components in an ISO 9001-certified process, which includes end-of-line testing for consistent, like new quality

## CONTROL YOUR REPAIR COSTS

Available off the shelf for a fraction-of-new cost, Cat Reman hydraulic pumps and motors are remanufactured to help bring down expenses and increase uptime.

**They also come with a same-as-new, 12-month warranty<sup>1</sup> which covers:**

- Repairs at any authorized Cat dealer (not limited to the original selling or servicing dealer)
- Parts and installation labor<sup>1</sup> to replace defective parts, when performed by an authorized Cat dealer
- Resultant damage<sup>1</sup> caused by a covered component to other Cat components
- Replacement of oil, coolant, filters and other service items if contaminated during a failure of a covered component<sup>1</sup>

## RECEIVE MORE VALUE FOR YOUR CORE

Our flexible core acceptance criteria helps you get more for your money. We use simple, visual inspections that don't require special tools or disassembly.

That means we can provide a quick decision on core condition and credit, so you don't have to guess about your repair costs.

**Receive full core credit<sup>2</sup> if:**

- Acceptable Cat part number
- Fully assembled and complete
- Housing not visibly cracked, broken or welded
- No fire damage
- No non-operational damage — mishandling, excessive rust, corrosion, pitting or unsuccessful attempt to salvage
- All ports are covered or have proper plugs installed

**However, even piston pumps and motor groups with visibly cracked, broken or welded housings and failed, non-running pumps or motors can be eligible for partial credit.**
