

CAT[®] Small Dozers

Service Replacement Products

Need to enhance your Cat[®] small dozer with improved comfort, safety or productivity features? Caterpillar offers service replacement products developed for Cat[®] small dozers.

Cat[®] Abrasion[™] Track Group Replacements

You push through some of the most abrasive materials. That's why we've designed **Cat[®] Abrasion[™] Track Group Replacements** that can take on abrasive material with industry-leading low cost-per-hour performance. Abrasion Track Group Replacements are ideal for applications in sand, mud, clay and gravel delivering the lowest cost per hour in these high-abrasion, low-to-medium impact applications.

Cat Abrasion Track Group Replacements are a complete assembled shoes and links system and are now available direct from the factory eliminating the need for the dealer to build your track saving you time compared to a conventional track replacement. Cat Abrasion Track Group Replacements provide:

- From-the-factory Abrasion Track Group Replacements offer the same tracks your new Cat small dozer came installed with
- Abrasion Track Group Replacements from Caterpillar guarantee you the same high-quality standards, post-paint assembly and a highly-controlled manufacturing environment
- Cat dealer installs complete Abrasion Track Group Replacement eliminating additional time for assembling track shoes to link assembly increasing your uptime on the job site
