The Cat® mulch bucket is designed for use with compact wheel loaders, skid steer loaders, and compact track loaders for loading mulch into pickup trucks and tight spaces while metering the load in landscape yards and landscaping applications. This bucket will allow you to load a full cubic yard of material at a time making it easy for the operator to keep up with the quantity they are loading. The smaller profile of the bucket allows needed clearance to load pickup trucks without spilling material, minimizing waste and maximizing safety.

FEATURES

SERRATED STEP

Deeply serrated step provides secure footing for operators entering and exiting machines.

BOLT-ON CUTTING EDGE

Standard bolt-on cutting edge ensures a ground engaging wear surface that is easily replaced when needed, extending the life of the bucket.

VISUAL CAPACITY INDICATION

Takes the guess work out of how much material is being loaded for the operator and customer.
