

CAT® 793D

MINING TRUCK

High Performance Engine – The proven Cat® 3516E engine offers you the perfect balance between power, increased durability and fuel economy.

3516B HD DGB Ready Engine Option – This factory built engine comes equipped with Cat® Dynamic Gas Blending™ (DGB) technology which automatically maximizes the amount of LNG used, allowing you to achieve the lowest possible fuel cost (up to 30% reduction) while reducing emissions and maintaining full machine performance, durability and reliability. Chassis DGB components sold separately.

Enhanced Serviceability – Improved serviceability points and grouped service locations mean your truck spends more time on the haul road than in the shop.

Power Shift Transmission – A smooth shifting six-speed transmission matched with electronic unit injection gives operators a comfortable ride, constant power and improved fuel efficiency.

Reliable Mechanical Drive System – The 793D's power train gives you class-leading fuel efficiency. It also provides excellent speed on grade and more rimpull for poor underfoot and high rolling resistance applications.

Robust Braking – Cat oil-cooled, multiple disc brakes on all four corners offer you exceptional, fade-resistant braking.

Comfortable Cab – The ergonomic cab is designed for operator comfort and ease of operation, and allows the operator to focus on production for optimum efficiency.

HP Body – The High Performance (HP) body provides extra durability combined with efficient design to reduce overall operating weight.
