

CAT[®] AD63

ENGINE MODEL: Cat C27
ENGINE POWER – ISO14396:2002: 593kW / 795HP
RATED PAYLOAD: 63000 kg / 138891 lb

MORE PAYLOAD. MORE POWER. MORE PROFITABILITY.

5% PAYLOAD CAPACITY INCREASE

- + 63 tonne (69 tons) payload with five body sizes including a new lightweight dump body to meet your mining requirements.

POWERTRAIN PERFORMS

- + Increase of engine torque rise from 18% to 28%, has been coupled with a powertrain ratio update to spread the torque rise, resulting in superior grade holding capability.

TECHNOLOGY IS HERE TO SUPPORT

- + Truck Payload Measurement System (TPMS) and Cat Product Link™ Elite (PLE) system are standard for configurations to assist the job and monitor truck life-time health.
