UPGRADE, REPLACE OR REPOWER
WITH CAT® REMAN ENGINE OPTIONS

GET MORE VALUE FROM YOUR REPAIR DOLLARS

When it's time to overhaul your Cat® heavy-duty on-highway truck engine, you need a solution that gets you back on the road fast, at a price you can afford. We offer two quality options that deliver just that. Both come fully assembled for a quick repair, and both can save you thousands in labor — savings you can apply to other overhaul needs.

A **Cat Reman engine** delivers like new performance at a fraction-of-new price when you return your end-of-life core,¹ making it a smart way to get your truck back up and running fast and within your budget. **Cat Reman engines with new content** provide 100% new cylinder blocks, crankshafts and cylinder heads. They're an ideal choice, whether you want to upgrade to a newer model or repower your truck with the exceptional core leniency that a Cat Reman engine provides. Cat Reman heavy-duty engines are covered by a 24-month Caterpillar Limited Warranty,² with Extended Service Coverage (ESC) available for even more peace of mind.

**COST-EFFECTIVE
UPGRADE OR REPOWER**

**2 REPAIR OPTIONS
TO FIT YOUR NEEDS**

**FULLY ASSEMBLED
SOLUTIONS**

TWO SMART SOLUTIONS THAT SAVE YOU TIME AND MONEY

CAT REMAN ENGINES

Cat Reman heavy-duty engines can simplify and accelerate your overhaul with a fully assembled, remanufactured solution. That includes components like the electronic control module (ECM), engine wiring harness and sensor set as well as a complete set of oil and fuel lines.

At state-of-the-art remanufacturing facilities, our team:

- Disassembles, cleans and inspects every component and incorporates the latest engineering changes
- Replaces all piston rings, rubber parts, springs, seals, gaskets and o-rings with 100% new components
- Installs new cylinder liners
- Regrinds and polishes crankshaft journal surfaces to exact dimensions
- Reassembles the final product using Caterpillar product engineering standards
- Performs dynamometer testing and tuning to ensure every product meets original performance specifications

» CORE CREDIT³ FOR CAT REMAN ENGINES

DOES YOUR CORE LOOK LIKE THIS?
IF SO, YOU MAY QUALIFY FOR FULL CORE CREDIT.

**FULL

NO CRACKS

NO FIRE DAMAGE

MINIMAL RUST

MORE VALUE, NO MATTER WHICH REPAIR OPTION YOU CHOOSE

CAT REMAN ENGINES WITH NEW CONTENT

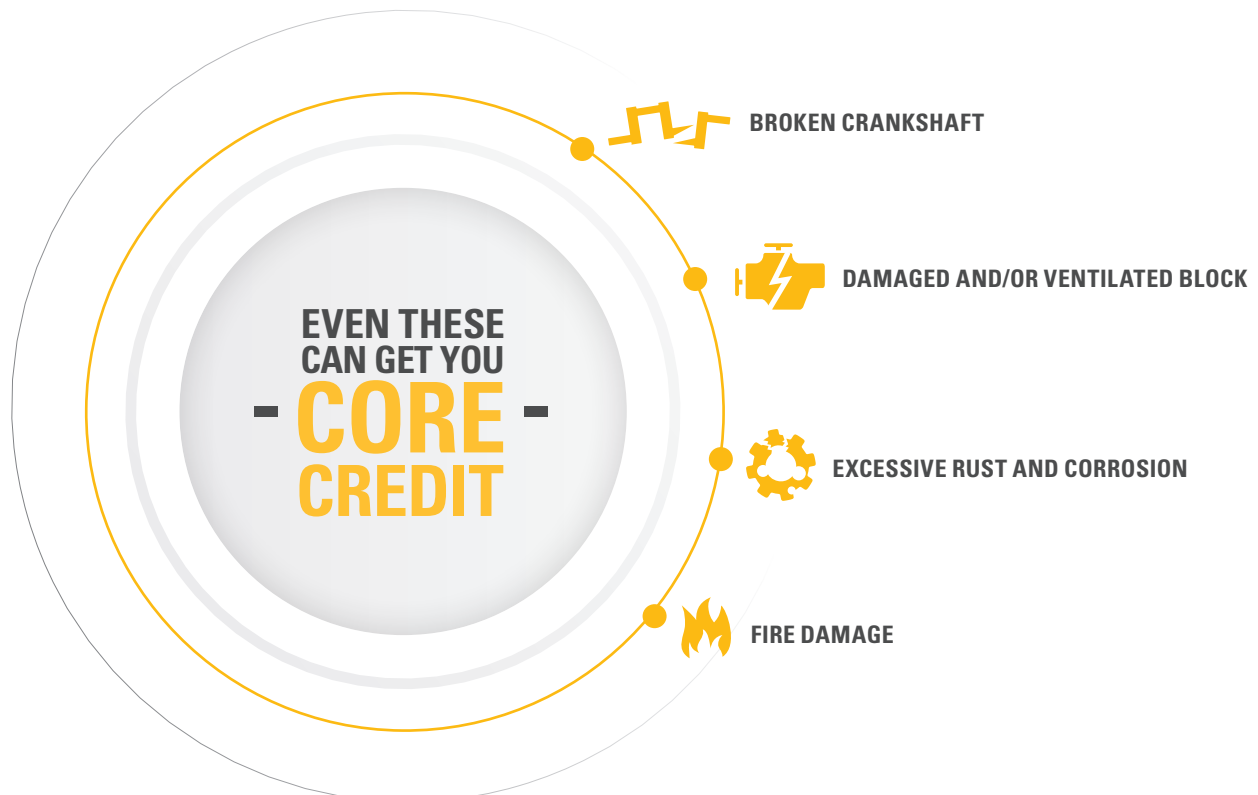

These engines feature 100% new cylinder blocks, cylinder heads and crankshafts — reducing the risk of a critical failure in components inspected during an overhaul.

Cat Reman engines with new content are an ideal repair option in these situations:

- You need to restart the lifecycle of your engine, making future overhauls possible.
- You want to upgrade to a newer model. With a Cat Reman engine with new content, you can move from an older, higher-emitting model to a newer, lower-emitting one.
- You want to replace another engine brand.⁴ A Cat Reman engine with new content lets you repower with a Cat Reman engine of similar displacement and emissions level.
- Your existing core is damaged due to failure or has no value due to excessive rust and corrosion.

» CORE CREDIT³ FOR CAT REMAN ENGINES WITH NEW CONTENT

GREATER FLEXIBILITY IN CORE ACCEPTANCE CRITERIA MEANS WE CONSIDER DAMAGED, RUSTED AND LOW-VALUE CORES FOR FULL CORE CREDIT — AS WELL AS QUALIFYING COMPETITIVE CORES.⁵

REPOWER OPTIONS THAT REDUCE DOWNTIME AND LABOR COSTS

» C-12 AND C13 WITH REAR ENGINE PTO CONFIGURATION

If your existing truck engine has a Rear Engine Power Take-Off (REPTO), a repower is easier and less expensive. Instead of purchasing a standard engine and reconfiguring it, you can repower your truck with a C-12 or C13 Cat Reman engine with new content and a REPTO configuration.⁶ This helps you save on labor costs and get your truck back on the road faster.

» C-12 WITH A STANDARD CONFIGURATION

The C-12 with a standard configuration includes a standard flywheel housing and offers all the advantages of other Cat Reman engines with new content — including 100% new cylinder blocks, cylinder heads and crankshafts.

WHAT THESE OPTIONS CAN DO FOR YOU

C-12 and C13 repowers for standard and Rear Engine PTO configurations offer:

- » Complete Cat Reman engines as convenient drop-in solutions
- » REPTO configurations that save you even more time and labor, as there is no need to reconfigure a standard engine
- » Replacement and repowering opportunities for C-12, C13, 3176, 3306, C-10 or C11 Cat truck engines
- » Cat Reman engines with new content, meaning you get 100% new cylinder blocks, cylinder heads and crankshafts

PRE-INSTALLED COMPONENTS THAT ADD VALUE TO YOUR ENGINE

CAT REMAN ENGINES AND CAT REMAN ENGINES WITH NEW CONTENT PROVIDE COST-EFFECTIVE WAYS TO REPOWER OR UPGRADE WITH COMPONENTS THAT ADD VALUE TO YOUR ENGINE.

	Cat Reman Engine	Cat Reman Engine with New Content
PRE-INSTALLED COMPONENTS		
CYLINDER BLOCK	•	100% new
CRANKSHAFT	•	100% new
CYLINDER HEAD	•	100% new
TURBOCHARGER	•	•
INJECTOR SET	•	•
ELECTRONIC CONTROL MODULE, ENGINE WIRING HARNESS & SENSORS	•	•
REAR HOUSING & FLYWHEEL	•	•
INLET & EXHAUST MANIFOLDS	•	•
OIL & FUEL LINES	•	•
AIR COMPRESSOR	•	•

CAT REMAN ENGINES SAVE YOU TIME AND MONEY

- » NO need for reusability determination
- » NO need to disassemble the engine
- » NO dealing with broken bolts
- » NO need to outsource machining or repair work
