

PERKINS® HYPERCARE OVERVIEW

perkins.com/hypercare

What is Perkins® Hypercare?

Flexible services for lifetimes of performance.

Perkins® Hypercare is a total support package designed to address the evolving needs and preferences over the life of a Perkins engine. Our experts help create a proactive support agreement tailored to the service and maintenance needed for a worry-free engine ownership experience.

What is the benefit?

No one knows Perkins better than Perkins.

With the care and expertise of a 90-year legacy, Perkins knows what power means. From the genuine parts and fluids powering your engine to the performance data collected from your machine, we've designed every part to fit without re-engineering and every service to build engine longevity.

A flexible solution built for you.

The details of your machine matter - especially the parts and services powering it. Perkins' genuine parts and quality services from trained technicians provide a more efficient and cost-effective engine ownership experience.

With Perkins® Hypercare, you can expect:

- 1 **Maximise performance and uptime**
 - Fixed response times with service performed by Perkins-trained technicians
 - Expert engine operation advice and maintenance plans
 - Personalised solutions guides by experts
- 2 **Optimised cost of ownership**
 - Agreed labour rates and fixed price repairs
 - Parts are delivered on a customer-specific schedule
 - Potential to extend fluid change intervals
- 3 **Expert engine care and service**
 - Genuine parts are designed to fit
 - Optimal overhaul and re-power scheduling
 - Perkins® Platinum Protection provides extended coverage

 Together, we power ahead.
