

**CAT® HOSE & COUPLING SOLUTIONS FOR MINING**

# HARDWORKING HOSES. COMPETITIVE COUPLINGS.

There are several reasons that Cat hose and couplings are a level above. These solutions are the right mix of extensive expertise, a committed safety mindset, and comprehensive support. Plus, we offer these options with quick turnaround times across your entire fleet your entire fleet, regardless of brand.

# WHY CHOOSE CAT HOSES & COUPLINGS?

## THE WORLD'S ONLY OEM MANUFACTURER

Caterpillar is the only OEM in the world that designs and produces its own hose assemblies. Because we're well-versed in the applications our machines withstand, we're able to precisely engineer our hose components for those demands.

## QUICK TURNAROUND AND PARTS AVAILABILITY

To keep up with the pace of a mine site, we offer the ability to make replacements with quick turnaround times with machine parts readily available, allowing you to work with confidence.

## SOLUTIONS FOR ALL SITES

Whether your site is in a remote location, you prefer to make your own repairs or you want comprehensive support on your mine sites, we have solutions for all kinds of mines and skill levels. Our options fall into five categories: dealer branch solutions, Scan-To-Buy QR codes, and online solutions, do-it-myself solutions, mobile hose vehicle solutions, and on-site hose container solutions.

## MIXED FLEETS

Cat hose and couplings are designed to deliver unrivaled performance on all kinds of equipment, in all-Cat and mixed fleets, regardless of brand.

## THE BENEFITS OF A RUGGED DESIGN

**Our hose and coupling components are engineered to endure the toughest applications while our one-piece components remain leak-free.**

- + Reliable connections and leak protection
- + Industry-leading dependability and safety
- + Unmatched hose flexibility
- + Increased uptime and productivity
- + Superior resistance in tough applications
- + Increased reliability and safety

## UNMATCHED SUPPORT

Your dealer delivers expert support so you can get the parts and guidance you need, right when you need them. Talk to your dealer today.
