

CAT[®] MAINTENANCE FOR MINING CVA

CAT[®] CUSTOMER VALUE AGREEMENTS FOR MINING
Equipment ownership plans tailored by your Cat dealer for the needs of your operation.

DON'T RISK UNPLANNED DOWNTIME. GET THE RIGHT PARTS — ON TIME. THAT'S A CVA.

A Maintenance for Mining Customer Value Agreement (CVA) from your trusted Cat® dealer is a hassle-free, total-fleet management solution. It provides flexible support for your maintenance operations, while avoiding unpredictable expenses. With this CVA, you can be confident that your team will always have genuine Cat parts and supplies, along with proactive Cat dealer labor, advice, and expertise that work to increase fleet uptime and productivity.

Choose from three levels of customizable CVA service:

1. **Convenience** — You provide the labor. Your Cat dealer provides preventive maintenance (PM) kits with the right parts, at the right time.
2. **Performance** — In addition to providing timely PM kits, your Cat dealer performs PM4 services with inspections on site.
3. **Confidence** — Includes fully dealer-managed PM kits and services, with inventory management, tracking, planning, logistics, and execution.

With all three levels, trained Cat dealer technicians are available to troubleshoot your equipment, provide capacity and capability consulting, and minimize risks to your assets.

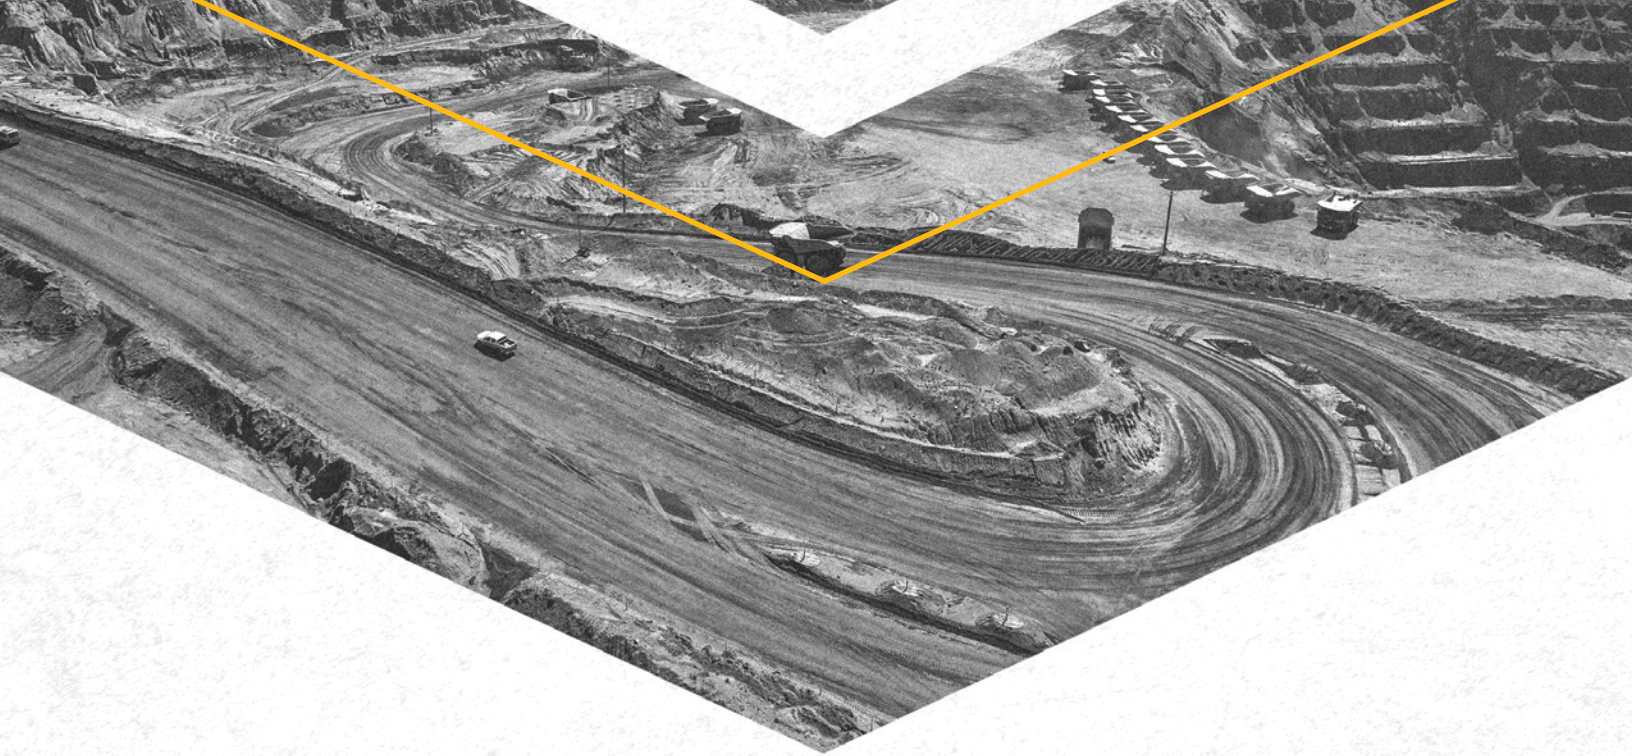

Dealer-executed PM and Technical Analysis 1 (TA1) inspections and real-time machine health monitoring provide accurate, timely service alerts, reducing unplanned downtime and saving on repair costs.

CAT MAINTENANCE FOR MINING CUSTOMER VALUE AGREEMENT

CAT MAINTENANCE FOR MINING CVA BENEFITS

REDUCED MAINTENANCE COST PER HOUR

- On-time maintenance prevents unplanned failures and reduces cost per hour.
- Predictable monthly payments allow for better cash flow control.
- Genuine Cat filters and fluids are designed to work together providing significant savings on overall costs.

TAILORED SERVICE

- On-time parts delivery reduces customer parts inventory.
- Component assurance programs broaden the scope beyond maintenance parts.
- Flexible terms and coverage let you optimize a CVA for your unique needs and maintenance operations.

IMPROVED UPTIME

- Timely alerts and advice enabled by CM services will improve uptime while reducing parts and labor costs.
- Cat fluids extend transmission fluid drain intervals and engine working life.
- Cat filters lengthen the life of your components.
