

CAT® REMAN MARINE-SPECIFIC LONG BLOCKS & SHORT BLOCKS

PERFORM LIKE NEW FOR YOUR
NEXT MAJOR OVERHAUL

REDUCE DOWNTIME WITH COMPONENTS THAT MEET
MARINE CLASSIFICATION SOCIETY REQUIREMENTS

Cat® Reman marine-specific long blocks and short blocks keep your vessels powered for their next lifecycle, saving you time and money with core return. Compliant with Marine Classification Society (MCS) requirements, both repair options include 100%-new crankshafts and connecting rods. These features make them a good fit for major overhauls and a convenient alternative to repowering your engine.

Wondering which choice is best for you? Cat Reman short blocks come with cylinder blocks and rotating assemblies. Meanwhile, Cat Reman long blocks include short blocks plus cylinder heads, camshaft(s) and valve covers. Both options are backed by a same-as-new, 12-month Caterpillar Limited Warranty.¹

Your Cat dealer can help you find the right option, whether you need to replace crankshaft and cylinder packs or additional components. Get parts with critical updates and, in the process, obtain the Marine Society certificates that your vessel needs.

**OVERHAUL REPAIR OPTIONS
COMPLIANT WITH MCS
REQUIREMENTS**

**100%-NEW CRANKSHAFTS
& CONNECTING RODS**

**LIKE NEW QUALITY, SAME-AS-NEW
CATERPILLAR LIMITED WARRANTY¹**

LIKE NEW PERFORMANCE FOR YOUR NEXT MAJOR OVERHAUL

Reduce downtime and labor costs with parts designed to meet Caterpillar performance specifications and electronically tested for consistent quality and long life. Consider the following features and benefits of each product.

CAT® REMAN MARINE-SPECIFIC LONG BLOCKS

- Useful when additional components like front gear train and housing or camshaft do not meet Caterpillar specifications
- Come fully assembled with: a cylinder block and head(s), crankshaft, camshaft(s), pistons, connecting rods and gear train
- May also include an oil cooler, oil pump, water pump and other components (depending on model)
- Available for C4.4, C6.6, C7.1, C18, 3412, 3412E and C32 engines

CAT® REMAN MARINE-SPECIFIC SHORT BLOCKS

- Good for crankshaft or cylinder pack issues when the cylinder head and gear train meet Caterpillar specifications
- Include cylinder block, crankshaft and cylinder packs
- Can remedy crankshaft or cylinder-pack issues while maintaining cylinder-head and gear-train functionality
- Available for C18, 3412, 3412E and C32 engines

Cat Reman marine-specific long blocks and short blocks come with 100%-new crankshafts and connecting rods, allowing traceable serial numbers and heat codes in compliance with Marine Classification Society (MCS).

RETURN YOUR CORE AND SAVE

With our flexible core acceptance criteria, your investment can take you further. Through simple, visual inspections, Cat dealers can confirm the core condition and total refund² available to you, so you know what goes into your repair costs.

You can be eligible for full core refunds² when:

- Core has an acceptable Cat part number
- Cylinder block is not visibly cracked, broken or welded
- Core is fully assembled and complete
- Crankshaft is not visibly broken
- Core displays no non-operational damage — mishandling, excessive rust, corrosion, pitting or fire damage

However, even core with visibly cracked, broken or welded cylinder blocks or visibly broken crankshafts are eligible for partial credit.

Please note: core returns reduce end-of-life waste and offer sustainability benefits, using fewer resources to restore parts to like new performance.

LOWER TOTAL COST OF OWNERSHIP

For a fraction of the cost of new parts with core return, Cat Reman marine-specific long blocks and short blocks are drop-in solutions that are delivered and ready to install. They're also covered by a same-as-new, 12-month Caterpillar Limited Warranty¹, protecting against defects in material and/or workmanship.

YOUR DEALER IS STANDING BY

The Cat dealer network stocks a broad line of Cat Reman parts and components. With 21 Global Caterpillar Parts Distribution centers and more than 2,300 authorized Cat locations, Cat Reman components are drop-in ready solutions, which help you reduce downtime and maintain productivity.
