

MOVE MINING EFFICIENCY FORWARD WITH AUTONOMOUS HAULAGE

Command for hauling has forever changed how mining companies move material. By making it possible for trucks to operate autonomously, Command delivers unprecedented gains in efficiency, safety and productivity.

TONNES SAFELY HAULED BY
AUTONOMOUS TRUCKS:

8,300,000,000+

0

REPORTED INJURIES
WHILE OPERATING
AUTONOMOUSLY

11+

YEARS IN PRODUCTION

316+

MILLION KILOMETERS
SAFELY TRAVELED

FEATURES & BENEFITS

- Enhances safety by removing operators from hazardous or remote sites and reduces the number of people required on site.
- Improves efficiency, enables consistency in operations and provides near-continuous operation through the reduction of operational delays.
- Reduces machine damage and downtime due to misuse and overloading.
- Allows the instant alteration or redesign of mine maps to meet changing operational needs.
- Enables advanced assignment and tracking from a central location.
- Alerts maintenance personnel to machine faults, enabling repairs before failure and reducing downtime.
- Integrates with existing systems and processes and can be used on any brand of equipment.
- Delivers greater value thanks to dedicated Caterpillar on-site specialists and experts with years of experience in implementing, supporting and maximizing the benefits of autonomous haulage.
