

BRIDGING POWER SOLUTIONS

LEARN HOW TO GET TEMPORARY POWER QUICKLY AND EASILY WHEN YOU CAN'T AFFORD TO WAIT.

YOUR CHALLENGES

Bridging power solutions could be the solution if you're facing the following ...

Delays to Utility Connection

A Current or Upcoming Power Deficit

Upcoming Plans for Site Expansion

Seasonal High Power Demand

OUR SOLUTIONS

Temporary Power

Diesel or natural gas generator sets can provide continuous power to your site so you don't experience a shortfall.

Weeks, Months or Years

Bridging power solutions can see you through monthly seasonal demand peaks or can provide continuous power for years at a time.

Supplement with Storage

Your bridging power solution can be complemented by our Battery Energy Storage offering and renewable energy sources.

End to End Support

Once your temporary power solution is in place, your local Cat dealer can provide you with asset monitoring, servicing and maintenance, so you have one less thing to worry about.
