

DEVELOP THE TALENT TO GO WITH YOUR TECHNOLOGY

MINING TECHNOLOGY ACADEMY

Our dedicated Cat® MineStar™ Training team provides customers, dealers and internal employees with the training and resources needed to effectively use and support Cat Mining Technology. We offer eLearning, instructor-led training, and on-the-job training by role, product, and skill level, enabling you to customize a training plan that suits your unique needs. Our training is enriched with videos, workbooks, simulators, and virtual reality to provide an interactive and engaging training experience.

Retain access to MineStar training material and transcripts

- Retain unlimited access to enrolled courses to refresh knowledge and reference while on-the-job.
- Maintain learner training history and certificates.
 - Certificates can be downloaded and printed.
 - Transcript share with other customer or learning management systems.

Extensive library – and growing

- ~200 courses with new and updated courses added monthly.
- Courses for MineStar Command, Fleet, Terrain, Detect, Edge and Health. Please see course catalog for complete listing.
- Spanish courses available.

Engaging, device friendly courses

- Courses are continually updated to be more interactive and user friendly.
- Take training on the go - eLearning courses can be completed anytime and from anywhere on any device.

COST SAVINGS

- Online learning reduces in-person training time, reducing costs related to being away from the job.
- Subscription packages are structured by number of users and customized to fit your needs.

SUBSCRIPTIONS

- Cost savings for multiple users.
- eLearning Licensing (1 year subscription)
 - individual (up to 10 users)
 - 11-25 users
