

Cat[®] TH0842

TELEHANDLER

FEATURES:

The Next Generation Cat[®] TH0842 Telehandler (TH) is focused on safety and ease of operation, with extended service intervals so it is ready to work when you are.

- **Comfortable Operator Station** – Cat Telehandlers offer a roomy operator station, with standard features like tilt steering column, dual charging ports, cupholder, and options like an enclosed cab with air conditioning and a top window sunshade to deliver excellent comfort when operating.
- **Easy To Operate** – Pilot controlled joystick with excellent multi-function capability, makes the Cat Telehandler easy to use. The intuitive LCD monitor provides easy to read machine information, with a choice of languages, and delivers a standard multi-operator code security system.
- **Safety On The Job Site** – Your safety is our top priority and the Cat Telehandler is designed to help keep you safer on the job. Standard equipment like the load stability indication (LSI) system, operator presence seat switch, rearview camera, high-visibility orange seat belt, and optional features such as the seat belt reminder system and hydraulic lockout switch, are just a few of the safety features we've built into the machine.
- **Simple Service For Less Downtime** – Maintenance is quick and easy on the Cat Telehandler. Daily check points are easy to access at ground level with grouped service points, and an easy-to-use service tool (patent pending) allows for quick and easy checks of the chain for tension, link wear, or stretching. Additionally, this tool provides integrated "go or no-go gauges" for quick checks of the boom wear pads. And you can rest easy with the standard 5-year/5,000-hour warranty for the main frame and boom sections.
- **Lower Operating Costs** – Equipped with features such as 500-hour greasing interval, 3,000-hour hydraulic oil, 6,000-hour extended life coolant, engine idle shutdown, and efficient hydraulics with a variable displacement pump, the Cat Telehandler was designed to help reduce your operating costs.
- **Cat Attachments** – Combining a wide selection of Cat Telehandler attachments with either the industry-standard TH coupler or the Integrated Tool Carrier (IT) coupler, the Next Generation Cat Telehandlers deliver exceptional versatility to meet the varied demands of today's job sites.
- **Unmatched Dealer Support** – Your Cat dealer is here to help you reach your business goals, from providing equipment solutions to operator training to service needs and beyond, your Cat dealer is ready to help!

Load Chart and Dimensions

IMPORTANT

Rated lift capacities shown are for a machine equipped with the specified carriage and forks. Load Chart is for reference only, not intended for machine operation.

The machine must be level on a firm surface with undamaged, properly inflated tires. Machine specifications and stability are based on rated lift capacities at specific boom angles and boom lengths. (If specifications are critical, the proposed application should be discussed with your dealer.)

DO NOT exceed rated lift capacity loads, as unstable and dangerous machine conditions will result.

DO NOT tip the machine forward to determine the allowable load.

Use only approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.

Due to continuous product enhancements, machine specifications and/or equipment changes may be made without prior notification. This machine meets or exceeds ANSI/ITSDF B56.6-2021, as originally manufactured for intended applications.
