How to diagnose & resolve equipment issues

AND MUCH MORE!

# A SOLUTION FOR EVERY CUSTOMER

Doing your own repairs isn't always easy. It can be challenging to find information you can trust to diagnose fault codes, understand proper repair and maintenance procedures, and ensure you have the right parts. There are always questions of "What parts do I really need?" or "What did I do with my equipment's Operation and Maintenance Manual?"

With SIS 2.0 and SIS2GO you can have additional confidence that you have access to the most current and reliable information, regardless of the size of your fleet!

## NUMBER OF MACHINES

### SIS2GO

**Perfect for On-the-Go Customers** | SIS2GO is always accessible, whether you have an internet connection, or disconnected with no service at all, the information you need is at your fingertips, even on the most remote job site locations.

**Asset QR\* Code Scanning** | Scan your assets QR Code to instantly add to your fleet for quick access to maintenance and repair information.

**Affordable Options** | Download SIS2GO at no cost from one of the app stores. You will have access to parts manuals and the operation and maintenance manuals. Access additional service information for an affordable monthly or annual subscription per equipment serial number.

### SIS 2.0

**One Stop Resource** | SIS 2.0 integrates parts and service data, reducing the number of platforms you need to get the job done.

**Improved Ability to Fix it Right, the First Time** | Help take the guesswork out of maintaining, troubleshooting, and repairing your equipment with Service Information System 2.0 (SIS 2.0) and SIS2GO, and have improved access to the most current and reliable parts and service information.

**Trusted Source** | SIS Web/SIS 2.0 has been in use since 1993. With support for over 4M pieces of equipment, no wonder its the most used application at Caterpillar.
