RELEASE NOTES

ALI

CAT® INSPECT

APRIL 2025

Cat Inspect: **Accurate inspection data** as well as a **single location** to capture and store all data, leading to enhancements in Equipment management, Condition Monitoring, CVA delivery and lead generation. It also **seamlessly integrates** with other Cat data systems to aid dealers in **generating leads** while both **improving customer productivity** in the field and **extending** the life of their equipment.

FEATURE **UPDATES**

Mobile *(release on April 1, 2025)*

+   *Please see **"Additional Enhancements"** section*

# BUG **FIXES**

+ Bugfix to see coordinates for the **Location** field in report when submitting **Site Type** inspection
+ Bugfix of issue affecting time format when exporting to CSV
+ Removal of **Additional Email** field when creating an inspection

ADDITIONAL **ENHANCEMENTS**

+ Upgrades to **Map View** to allow progressive loading of results
+ Mobile plugins updated from Cordova to Capacitor
+ Inclusion of all header information in email
+ Addition of warning messaging to user if they have hidden all header fields
