MD6640 Rotary Blasthole Drill Specifications

Power Source

- Siemens AC Induction Motor 597 kW 800 hp
- Totally enclosed, fan-cooled, Service Factor 1.15, Class F Insulation
 - Squirrel Cage, 2-pole, horizontal, foot-mounted AC motor (Dual Shaft)
 - Operates on a power supply determined per country and mine requirements
 - Short circuit protection, reverse phase relay protection, thermal overload protection, vacuum starter, disconnect switch

Compressor/Receiver Options

- Compressor (single stage)
- | | | |
|---------------------------------|-----------------------------------|-------------------------------------|
| Volume and Max Working Pressure | 108 m ³ /min @ 4.5 bar | 3,800 ft ³ /min @ 65 psi |
|---------------------------------|-----------------------------------|-------------------------------------|
- Connection to Induction Motor Rubber coupling
- Variable volume controls enable operators to adjust air output to reduce energy consumption and optimize bit performance.

Receiver Tank Options

- Low Pressure 4.5 bar (65 psi)

Cooling

The MD6640 is functional in ambient temperatures ranging from -40° C to 50° C (-40° F to 122° F), based on the selected Climate Package.

Cooler assembly for compressor system:

- Belt-driven fan
- 29.8 kW (40 hp) electric motor
- 18.6 kW (25 hp) additional motor/pump

Cooler assembly for hydraulic system:

- Direct drive fan
- 2.2 kW (3 hp) electric motor

Climate Options

Climate Level 1 (standard fluids and lubricants)

- Rated down to -1° C (30° F) temperatures
- Withstands high heat to 50° C (122° F)

Climate Level 2 (cold weather fluids and lubricants)

- Rated for temperatures 0° C to -20° C (32° F to -4° F)
- Water injection heater and two (2) machinery house heaters

Climate Level 4 (Arctic fluids and lubricants, heating package)

- Rated for temperatures -20° C to -40° C (-4° F to -40° F)
- Compressor cooler assembly with temperature-activated louver package, insulated cooler compartment with heater 15 kW (20 hp).
- Insulated machinery house walls and roof. Vents with rubber flaps prevent wind from entering the enclosure.
- Insulated water injection tank with 4.5 kW (6 hp) heaters and heat tape for water injection piping
- Two (2) machinery house heaters (15 kW [20 hp] each)

Frame and Work Deck

- High strength steel construction, continuous top and bottom plate, closed torsion box design
- A-frame lugs with hardened steel bushings that are integrated with the main vertical plates
- Front jack towers are integrated into the main frame, at the connection point for mast braces
- Stationary rear drill deck; for vertical and angle drilling
- Hydraulically actuated sliding view hatch for positioning over target
- Four-jack Automatic Leveling System for safe, fast cycle times
- Automatic centralized lubrication banks for all pivot points
- Heavy duty tow eyes (front end) to connect tow bar
- One egress point on rear drill deck area in addition to main access boarding stairs
- Cab perimeter walkway
- Sturdy guardrails, toe guards, self-closing gates

Undercarriage

| | | |
|-------------------------------|-------------------------|-------------|
| Model | Cat® 395 Excavator type | |
| Lower rollers | 13 | |
| Carrier rollers | 5 | |
| Track chain guards and guides | Full length, heavy duty | |
| Draw bar pull | 79 894 kg | 173,932 lbs |
| Travel speed | 0.48-1.77 km/h | 0.3-1.1 mph |

Double grouser track shoes

| | | |
|-----------------------|--------|----------|
| Standard shoes | 750 mm | 29.53 in |
| Optional shoes (wide) | 900 mm | 35.43 in |

- Hydrostatic propel and independent planetary drives enable maneuverability in tight locations
- Positive Pin Retention (PPR2) and Grease Lubricated Track (GLT) pins
- Double grouser track shoes provide more traction
- Automatic hydraulic track chain tensioning system
- Spring-applied, hydraulically released wet disc braking system
- Dual axles (fixed rear, oscillating front yoke) provide flexibility to propel over rough terrain

Hydraulics

- Two (2) variable displacement piston pumps drive independent crawler track drives
- Three (3) gear pumps drive cylinders as part of an open circuit system
- Automatic, centralized 45-point lubrication system
- Return line filters mounted in the hydraulic reservoir ensure fluid integrity
- S·O·SSM ports

MD6640 Rotary Blasthole Drill Specifications

Mast and Pipe Carousel Features

| | | |
|------------------------|-------------------|------------------|
| 21.3 m (70 ft) Mast | | |
| Hole diameter range | 270 – 406 mm | 10.625 – 16 in |
| Single-pass depth | 21.3 m | 70 ft |
| Multi-pass depth | Up to 42.7 m | Up to 140 ft |
| Hoist capacity | Up to 49 895 kg | Up to 97,605 lb |
| Hoist speed | Up to 22.86 m/min | Up to 75 ft/min |
| Bit load (single-pass) | Up to 63 975 kg | Up to 141,000 lb |
| Feed speed | Up to 7.62 m/min | Up to 25 ft/min |

- Left-hand (LH) and Right-hand (RH) pipes racks are hydraulically actuated. Racks accept various pipe diameters.
- Configuration choices include single- or multi-pass and vertical drilling. Contact your local Cat dealer for optional angle drilling packages (supports mast angle out to 25 degrees, in 5-degree increments*).
- 21.3 m (70 ft) mast configuration complete with pipe rack (left hand side)
- Square, tubular lattice design with horizontal and angle lacing to reduce stress as connection points
- Enlarged torsion box reinforcements at defined intervals for increased mast rigidity
- Main chords have a double tubular design for increased resistance to buckling loads
- Rack and pinion pulldown/hoist system driven by a single excavator-grade DC drive motor
- Maximum single pass bit loading up to 63 503 kg (141,000 lbs)
- Pulldown power transmitted through a triple-reduction gearbox with electrically actuated, spring set disc brake mounted to input shaft to prevent head fall in the event of power failure
- Variable grip hydraulic break out wrench (HOBOW) for range of pipe diameters
- LH and RH Deck Tongs standard, optional sliding deck wrench assembly
- Configured with roller deck bushing for tricone applications

*With optional angle hole equipment

Mast Packages

| | | |
|--|---|-------------|
| 21.3 m (70 ft) Mast | | |
| Mast accessories | Two pipe catchers, left-hand and right-hand deck tongs, left-hand pipe rack and overhead winch assembly | |
| Bit basket (Bit wrench) | Manual | |
| Angle drilling | Optional angle drilling package available. Contact your local Cat dealer. | |
| Left-hand pipe rack holds a full column of pipe | 9.1 or 12.2 m | 30 or 40 ft |
| Optional RH pipe rack (for dual racks) holds a full column of pipe (30 or 40 foot) | 9.1 or 12.2 m | 30 or 40 ft |

Hydraulic Break Out Wrench

| | | |
|-------------------------|------------|---------------|
| Variable Grip Hydraulic | 235-273 mm | 9.25-10.75 in |
|-------------------------|------------|---------------|

Drill Pipe

Customer preference – the MD6640's 21.3 m (70 ft) single-pass mast will accommodate the following pipe lengths:

| | | |
|--|---------|---------|
| | 9.9 m | 32.5 ft |
| | 10.67 m | 35 ft |
| | 12.19 m | 40 ft |
| | 13.7 m | 45 ft |

Single Rack (left-hand side)

| | | |
|--|------------------------------|--------------------------------------|
| Outside Diameter pipe – 235 or 273 mm (9.25 or 10.75 in) | Wall thickness: 25 mm (1 in) | Standard S-S length: 10.67 m (35 ft) |
|--|------------------------------|--------------------------------------|

Dual Rack (left- and right-hand sides)

| | | |
|--|------------------------------|--------------------------------------|
| Outside Diameter pipe – 235 or 273 mm (9.25 or 10.75 in) | Wall thickness: 25 mm (1 in) | Standard S-S length: 10.67 m (35 ft) |
|--|------------------------------|--------------------------------------|

Tool Package Rotary (standard)

- Roller deck bushing
- Bit wrench
- LH/RH deck tongs
- Top cross-over adaptor
- Pipe wiper seal

Tool Package Rotary (optional)

- Cushioned deck bushing centralizer
- Deck wrench, sliding, mounted on rotating break-out base
- Heavy Duty Shock sub and top sub adaptor

Rotary Head Top Drive System

- 145 kW (195 hp) excavator-grade DC motor drives a heavy duty, double reduction gearbox
- Speed control system maintains the ideal rotary bit speed
- 475V DC motor provides up to 125 rpm max bit speed and 17,489 N·m of torque (12,900 ft-lb) at 100%
- High performance rotary swivel seal with automatic lubrication

MD6640 Rotary Blasthole Drill Specifications

Operator Environment

- Spacious Falling Object Protective Structure (FOPS) cab provides 4.2 m² (45.2 ft²) floor space with an integrated operator station
- Cab perimeter walkway
- Cab rubber shock-mounts to absorb mechanical vibration and minimize outside noise
- Two swing-out, hinged doors with windows and Cat keyed locks
- Operator station includes:
 - Ergonomic, locking swivel seat with armchair joystick controls
 - Two-point seatbelt, lumbar support, tilt (5° adjustment), fore/aft seat adjustment 80 mm (3.1 in)
 - Single 381 mm (15 in) color, high-definition touchscreen to monitor drill performance and activate functions
 - 12-volt power ports
- Additional 254 mm (10 in) color, high-definition display screen for cc cameras
- Radio-ready for communication and entertainment radio
- Literature holder
- Foldaway trainer's seat with retractable seat belt (option)
- Removable floor mat
- Standard Cab
 - Fabric seat
 - Single pane window glass
 - Removable drill window guard
 - Windshield wiper for driller window
- Premium Cab
 - Leather-trimmed seat with heat and ventilation
 - Dual pane window glass
 - Removable drill window guard
 - Fixed front window guard (facing machinery house)
 - Windshield wiper for driller window, as well as front and rear windows
 - Additional in-cab storage box
- Lighting
 - LED interior lights in cab; separate reading light, and backlit joysticks and keypads
 - LED interior lights (machinery house)
 - Zone controls for area lights and spot lighting for night drilling
 - Flood lights for the drill perimeter
 - Spotlights for cable reel area; drill deck; mast carousel; access ladder and walkways
 - Optional cab- and mast-mounted amber strobe lights
 - Emergency back-up lighting in case of power failure
- HVAC
 - Floor vents in the footrest area
 - Roof-mounted air conditioner/heating/pressurizing unit
 - Filter access from deck (does not require roof access); has approximately 500-hour service interval
 - Defogging HVAC vents on driller window
- Cameras
 - Mounted on the non-cab side, under the cab and above cable reel to provide 360° view from operator's seat
 - Additional camera on the mast to view pipe rack and rotary drive operation

Operating System Controls (Standard)

- Rotary torque control
- Virtual rotary head travel stops and interlocks
- Mast machinery brake engaged/disengaged indicator
- Mast machinery (feed and hoist) speed control
- Water injection control
- Mast and mast strut lock indicators
- Tram interlocks to increase operator safety and prevent accidental machine misuse, including for:
 - Machine stability limit
 - Pipe in hole
 - Mast up and locked or down and parked
 - Jacks retracted
- Cab environment controls (AC, filter, heat, fan speeds)
- Level indicator and jack pressure sensors
- Pre-wired for MineStar™ Terrain and autonomous operation
- Data logging of machine health with warnings and fault code records; export capability
- In-cab digital display to monitor:
 - Rotary head rpm
 - Real-time drill depth
 - Drill performance and drill health
 - Machine diagnostics and testing

Automation and Technology

- Drill depth indicator and interlocks
- Drill Assist automated functionality, including:
 - Auto Level (and auto jacks retract)
 - Programmable Drill Controls for automated drilling (single pass)
- Product Link™ Elite (hardware from factory; subscription package sold separately via dealer)
- Autonomous ready
- MineStar Terrain for Drilling ready (Terrain license required; sold separately)

MD6640 Rotary Blasthole Drill Specifications

Dust Suppression Options

- Water injection dust control system
 - Water tank capacity: 3785 L (1,000 gal)
- Optional dry dust collector system (contact factory for more information)
 - 255 m³/min (9,000 cfm) dry dust collector
 - Self-cleaning filters with auto-eject dust chute
- Static dust curtains, four sides boxed-in
- Front and rear hydraulic retractable dust curtains

Service Packages

- Option: fast fill for compressor and hydraulic oil, automatic lubrication system

Service Tool Options

- Lifting bails
 - 168 mm (6.625 in) American Petroleum Institute (API) reg thread for top sub/shock sub and 270-349 mm (10.625-13.75 in) tricone bits
 - 152 mm (6.0 in) Bucyrus Erie Company (BECO) thread for 235 mm (9.25 in) pipe
 - 203 mm (8.0 in) BECO thread for 273 mm (10.75 in) pipe

Safety and Security

- Seven (7) machine shut down buttons:
 - Four (4) on ground level
 - One (1) in cab
 - One (1) on drill deck
 - One (1) in machinery house
- Electric horn activated by push button in the cab, and ground level at powered stair access
- Tram alarm is automatic and audible
- Protective window guards for full drill window, front window
- Isolated main High voltage disconnect
- Lockable circuit breakers
- Mechanical interlocks for electrical drive cabinets
- Trip overloads for axillary motor
- High voltage cabinets secured with Kirk-Key Arrangement
- Lightning arrestor assembly
- Automatic head brake upon power loss
- Multiple warning alarms for unsafe conditions
- Programable drill control to minimize vibration
- Vertical tower access ladder with safety hoops
- Drill deck egress point in addition to main powered-stairs access
- Self-closing gates secure egress ladder locations and cab-roof access
- Four (4) closed circuit cameras and screen in cab to provide 360-degree view
- Air hose retention devices

MD6640 Rotary Blasthole Drill Specifications

Dimensions

Optimal Working Ranges (all dimensions are approximate)

| | | |
|---|---------|-----------|
| A. Height with Vertical Mast | 31.85 m | 104.42 ft |
| B. Height with Horizontal Mast | 9.88 m | 32.42 ft |
| C. Length of Chassis with Cable Reel | 16.97 m | 55.67 ft |
| D. Length with Horizontal Mast | 33.05 m | 108.42 ft |
| E. Working Width | 7.82 m | 25.67 ft |

Weights*

| | | |
|----------------|------------|------------|
| Working Weight | 172 365 kg | 380,000 lb |
|----------------|------------|------------|

*Type and number of options will affect machine weight

MD6640 Standard and Optional Equipment

Standard and Optional Equipment

Standard and optional equipment may vary. Consult your Cat dealer for details.

| | Standard | Optional | | Standard | Optional |
|--|----------|----------|--|----------|----------|
| UNDERCARRIAGE | | | CAB OPTIONS | | |
| 900 mm (35") wide double grouser | | ✓ | Extended cab; size 4.2 m ² (45.2 ft ²) | | ✓ |
| 750 mm (30") wide double grouser | | ✓ | Fabric seat with heavy-duty suspension and two-point retractable seatbelt | ✓ | |
| MAST GROUP | | | Fabric seat with leather trim, heat and ventilation, heavy-duty suspension and two-point retractable seatbelt | | ✓ |
| 21.3 m (70 ft) Single Pass Hole Depth | ✓ | | Foldaway trainer's seat with retractable seatbelt | | ✓ |
| Single Pipe Rack – Left Side (select length: 9.14 m [30 ft] or 12.19 m [40 ft]) | ✓ | | Window shades | | ✓ |
| Winch: 5443 kg (12,000 lb) capacity | ✓ | | Dual-pane glass | | ✓ |
| Pipe catcher, manual (two each) | ✓ | | Cab roof access system (includes ladders, cage and rails) | ✓ | |
| Roller deck bushing | ✓ | | Viewing hatch for hole spotting with spotlight (hydraulically operated) | | ✓ |
| Bit basket (bit wrench), select diameter: 270, 311 or 349 mm (10.625, 12.25 or 13.75 in) | ✓ | | Lighting package: flood light on perimeter (4200 lumens), area spotlights (1950 lumens each). Mast clearance lights, cab- and front-mounted amber strobe tram beacon | ✓ | |
| Dual Pipe Rack – Additional Right Side; 9.14 m (30 ft) | | ✓ | FRAME | | |
| Maximum Pulldown 49 900 kg (110,011 lb) | ✓ | | Viewing hatch for hole spotting with spotlight (hydraulically operated) | ✓ | |
| Maximum Bit Loading 64 000 kg (141,096 lb) | ✓ | | Cable Reel with 457 m (1,500 ft) Capacity (cable not included) | ✓ | |
| LANGUAGE – DECALS AND NAMEPLATES | | | Jib Hoist mounted on drill deck (to lift bits, subs, deck bushings) | | ✓ |
| English, Spanish or French | ✓ | | Remote Winch Control (tethered control, outside of cab) | | ✓ |
| Additional Languages (contact factory) | | ✓ | <i>(continued on next page)</i> | | |
| COMPRESSOR/ELECTRIC MOTOR GROUP | | | | | |
| Single stage compressor – 108 m ³ , 4.5 bar (3800 cfm, 65 psi) | ✓ | | | | |
| Siemens induction motor – 800 hp (597 kW) | ✓ | | | | |
| TECHNOLOGY PRODUCTS | | | | | |
| Product Link™ Elite series PLE742 (Cellular) | ✓ | | | | |
| Product Link™ Elite series PLE782 (Dual – Cellular + Satellite) | | ✓ | | | |

MD6640 Standard and Optional Equipment

Standard and Optional Equipment *(continued)*

Standard and optional equipment may vary. Consult your Cat dealer for details.

| | Standard | Optional | | Standard | Optional |
|---|----------|----------|---|----------|----------|
| DUST CONTROL | | | COLD WEATHER PACKAGES | | |
| Water injection with 3785 L (1,000 gal) tank, includes drainage hardware, water level sensor and self-contained/submersible electric water pump | | ✓ | Cold weather package for temperatures 0 to -20 °C (32 to -4 °F); Includes water injection tank heater, machinery house heaters | | ✓ |
| Hydraulic Retractable Dust Curtains (Not available w/ Static Dust Curtains or Rear Tow Hooks) | | ✓ | Extreme Cold weather package for temperatures -20 to -40° C (-4 to -40° F); Includes heated and enclosed compressor cooler compartment, insulated machinery house with rubber vent flaps and two (2) heaters (15 kW [20 hp] each), water injection tank heater and heat tape for water injection piping (ordered with Premium Cab, which also includes dual pane glass and heated/ventilated operator seat) | | ✓ |
| Static Dust Curtains (Not available with Hydraulic Retractable Dust Curtains) | | ✓ | MISCELLANEOUS | | |
| DRILL MONITORING AND CONTROL | | | Canadian Code Material | | ✓ |
| Auto-Drilling, Programmable Drill Control (PDC) | | ✓ | Front Tow Bar Assembly | | ✓ |
| Interface for Third Party Mining Systems (Basic, Reporting Only) | | ✓ | Rear Tow Hooks (Not available w/ Hydraulic Dust Curtains) | | ✓ |
| Integrated Interface for MineStar Terrain for Drilling/Command for Drilling | | ✓ | Emergency Stop Trip Cable (Ground Level) | | ✓ |
| DRILLING | | | Mechanical Safety Locks for Leveling Jacks | | ✓ |
| Heavy Duty Rotary Shock Sub | | ✓ | Amber Strobe Lights (One on Mast, One on Cab) | | ✓ |
| Cushioned Deck Centralizer – reduces vibration of drill pipe in the hole | | ✓ | Fire Suppression Interface (fire suppression supplied locally) | | ✓ |
| Variable Grip Hydraulic Breakout Wrench | | ✓ | | | |
| Sliding Deck Wrench on Rotating "Break Out" Base (Not available with Centralizer) | | ✓ | | | |
| FLUIDS | | | | | |
| Tool lubrication System (Rotary Tricone) | | ✓ | | | |
| Drill pipe thread greaser with reloadable tank that can also hold a disposable grease bucket | | ✓ | | | |
| Remote Fill; includes auto lube system, hydraulic reservoir and compressor remote fill | | ✓ | | | |
