WELCOME NOTE

Driving success through information!

Dear Readers,

I am delighted to introduce the inaugural edition of Perkins Ignition – a quarterly newsletter dedicated to the Asia Pacific region. In this edition, we aim to bring you insightful articles, updates, and stories from the world of Perkins engines, parts, and services. Also, the opportunities to connect and ignite innovations within our diverse region.

We hope you find this newsletter informative and engaging. We look forward to connecting with you in the future editions!

Anurag Pai

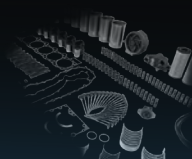

Marketing Manager, South East Asia | Email: Anurag.pai@perkins.com

PRODUCT SPOTLIGHT

2600 SERIES

Compact Powerhouse

An adaptable solution delivering up to 515 kW (690 hp) in power and performance your fleet's biggest machines can depend on. The 2600 Series is built and tested to power more of the equipment that moves the world forward.

- Turbocharged design: Smaller footprint with power up to 515 kW (690 hp)

- More up-time: 1000 hour service interval

- Future proofed design: Engineered for future gas spark-ignited fuels like natural gas and hydrogen

- Flexible and Versatile: B20 biofuels and HVO compatibility

[DISCOVER MORE](#)

5000 SERIES

Powering Heavy Industry

For large-scale energy needs, the Perkins® 5000 Series delivers high efficiency and durability for mission-critical applications. Offering rapid load response and extreme condition adaptability, it is built for critical, commercial, data centre and emergency power applications.
