

CAT® REMAN FOR

MINING

**KEEP YOUR MINE SITE RUNNING DAY AND NIGHT
WITH LIKE-NEW PERFORMANCE**

REAP THE CAT® REMAN BENEFITS

» IT ALL STARTS WITH CORE

Bring in end-of-life components (known as “core”) to your Cat® dealer and unlock the world of Cat Reman. When you return your eligible used core, you can get a core deposit refund — lowering your total cost of ownership.¹

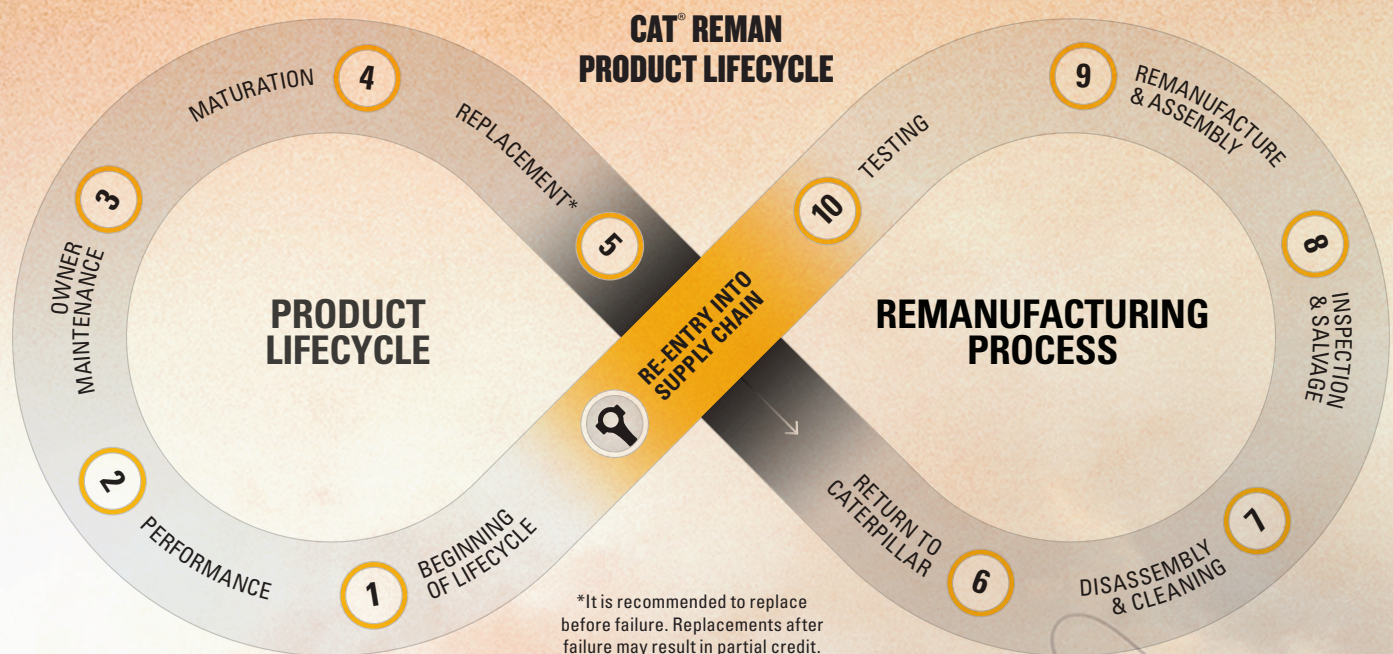

From there, your core begins the remanufacturing process, undergoing rigorous testing to meet Caterpillar performance specifications. Then, it re-enters the supply chain as a Cat Reman product.

» CHOOSE CAT REMAN FOR:

- ✦ **Drop-in ready repair options** to keep you working day and night
- ✦ **Like-new performance** for your mining application
- ✦ **Fraction-of-new cost** with core return, lowering total cost per ton¹
- ✦ **Same-as-new Caterpillar Limited Warranty**²
- ✦ **8,000+ parts available** from hydraulics and electronics to engines and drivetrain

¹Core conditions apply.

²Warranty can vary by model and application; limitations apply. For complete details about the applicable Caterpillar Limited Warranty, contact an authorized Cat dealer.

REMANUFACTURED PARTS, READY WHEN YOU ARE

» REPAIRS. REPLACEMENTS. REBUILDS. ALL WITH CAT REMAN.

To keep your mining machine working at its best, it's critical to execute planned maintenance, component repairs or replacements before failure. Cat Reman brings you a cost-effective way to do that, with parts available for several levels of Cat repair options:

USE CAT REMAN

LEVEL 1

✦ Basic repair

LEVEL 2

✦ Basic repair plus component

Covers basic repair and wear parts.

LEVEL 3

✦ Complete rebuild/exchange

More comprehensive repairs.

Cat Reman long blocks and short blocks are often used.

LEVEL 4

✦ Replace using Cat Reman parts

Complete major component replacement like drivetrain and engines.

LEVEL 5

✦ Replace using new Cat components (Use Cat Reman New with Core)

Cat Reman New with Core offerings provide a genuine new Cat part at a reduced price when an acceptable core is returned.¹

¹Core conditions apply.

» A GLIMPSE INTO THE CAT REMAN PROCESS

Every Cat Reman part goes through state-of-the-art processes including:

- 1. Disassembly & Inspection:** Components are carefully taken apart, piece by piece — losing their original identity and serial number.
- 2. Cleaning & Restoration:** Even the microscopic debris is removed.
- 3. Rigorous Testing:** Parts are tested to meet the exact standards of new Cat parts.
- 4. Reassembly & Final Inspection:** Parts are reintroduced as Cat Reman parts, ready to perform like new.

» WHAT ABOUT SUSTAINABILITY?

When you choose Cat Reman, your core return supports the circular economy. When this core goes through the remanufacturing process, this means:

- ✦ Fewer greenhouse gas process emissions³
- ✦ Less process energy used³
- ✦ Less new materials used, by weight³

³Represents U.S. environmental impacts of gate-to-gate remanufacturing and remanufacturing processes for Cat engines and components, as defined in the 2018 United Nations Environment Programme report "Redefining Value – The Manufacturing Revolution." Does not include impacts elsewhere in our value chain.

» CAT CERTIFIED REBUILDS: MORE THAN JUST A NEW LIFE

Looking to save more money? Often, performing a rebuild on your equipment makes the most sense, and the use of Cat Reman parts helps you meet your preferred price point. With a Cat Certified Rebuild, you can:

- ✦ Extend the life and value of your equipment investment.
- ✦ Restore original performance and like-new productivity levels.
- ✦ Bring the benefits of new product enhancements to your surface or underground application.

PERFORMANCE YOU CAN RELY ON

» CATERPILLAR LIMITED WARRANTY

Not only do Cat Reman products deliver like-new performance at a fraction-of-new cost with core return¹, but they're all backed by our Caterpillar Limited Warranty².

¹Core conditions apply.

²Warranty can vary by model and application; limitations apply. For complete details about the applicable Caterpillar Limited Warranty, contact an authorized Cat dealer.
