MACHINES » POWER MODULES » UNDERCARRIAGE » COMPONENTS » AFTERMARKET & SERVICES

**Caterpillar OEM Solutions works with Original Equipment Manufacturers (OEMs) to integrate partial Cat® machines, technologies, systems, and components into their product offerings.**

Incorporating proven Cat® content allows OEMs to leverage Caterpillar's robust designs with global support from the Cat dealer network for parts and service. Since 1965, Caterpillar OEM Solutions has evolved and adapted to continuously bring our customers and dealers the products, services, and support they expect from Caterpillar.

**Our goal is to maximize Caterpillar content for specialty OEM machines, providing the benefit of Caterpillar quality, reliability, serviceability, and availability.**

# MACHINES

## **Cat® Water Solutions:**

777-07, 777-05, 785D, 789D

## **Off-highway Truck Bare Chassis:**

770, 772, 775, 777, 785, 785D, 789D

## **Articulated Truck Bare Chassis:**

725, 730, 735, 740 GC, 745

## **Partial Wheel-Tractor Scrapers:**

621, 631, 651

## **Frontless Mining Shovels:**

6015, 6020, 6030, 6040, 6060

## **Partial Wheel Loaders:**

950, 962, 966, 972, 980, 982, 988

## **Motor Graders:** 120

## **INDUSTRY / APPLICATION:**

Mining, Quarry, Water Distribution,  
Construction, Industrial, Towing,  
Hauling, Underground

# POWER MODULES

## **Engines:**

### **C9.3B – C18**

(224 kW – 571 kW / 300 hp – 766 hp)

### **C27 – C32B**

(652 kW – 970 kW / 874 hp – 1,301 hp)

## **Transmissions:**

TR16, TR35, TR43, TH43, TA19, TA22, CX31

## **Integrated Systems:**

Partial System Kits

## **INDUSTRY / APPLICATION:**

Mining, Quarry, Underground, Industrial  
Agriculture, Locomotive

## WHAT WE DO

We provide integrated solutions for specialty applications, leveraging Cat components and machines to solve customer challenges.

## HOW WE DO IT

- + Developing new opportunities with customers and industries.
- + Leveraging existing capital, resources, and expertise.
- + Ensuring alignment with Caterpillar product and component groups.
- + Utilizing Cat dealer network and direct path to market for OEM customers.

# UNDERCARRIAGE

(Designed for 3rd Party OEMs)

**Complete lowers / side frames  
in a variety of track pitches (greased):**  
101.6 mm, 135 mm, 154 mm, 171.5 mm,  
190.5 mm, 203.2 mm, 215.9 mm, 260.4 mm

**Components / link assemblies  
in a variety of track pitches (oiled):**  
155.6 mm, 175.5 mm, 202.8 mm,  
215.9 mm, 240 mm, 260 mm, 318 mm

- + Rubber and steel track available
- + General Duty, Heavy Duty, HDXL options
- + Customizable paint colors

## INDUSTRY / APPLICATION:

Rotary Blast Hole Drills, Track Drills,  
Forestry, Stump Grinders, Woodchippers,  
Mobile Conveyors, Mobile Crushers

# COMPONENTS / AFTERMARKET

Technology Integration:  
**Cat Water Delivery System (WDS)**  
**Cat MineStar Edge for Water**  
(first fit / retrofit)

**Component Packages and Partial  
System Kits:** Drivetrain, Engines,  
Axles, Cabs, Electronics, Hydraulic  
Pumps / Motors

## INDUSTRY / APPLICATION:

Mining, Quarry, Dust Suppression,  
Mobile Crushers, Construction,  
Industrial, and more

**WHY OUR  
CUSTOMERS  
WANT TO WORK  
WITH US**

Utilizing Cat OEM Solutions to enhance their products enables our customers to leverage existing designs, manage risk, and gain global support from the renowned Cat dealer network.

AWT = Autonomous Water Truck. The Cat 789D is available as a fully autonomous water truck equipped with Cat MineStar™ Command connected to the Cat Water Delivery System with validated 3rd party water tanks.

\*Available with and without hoist cylinders. \*\*Varies by 3rd Party OEM attachment and machine configuration.

Towing capacity not to exceed front or rear axle operating weights and trailer manufacturer gross weight.

## CAT WATER SOLUTIONS

### PRECISION WATERING THROUGH AUTOMATION AND DATA TRACKING

**Cat® Water Solutions is more than a water truck.** It's an integrated solution designed with an automated water delivery system, driven by a proven Cat truck platform, connected with advanced technology — providing a more efficient way to manage haul road dust.

**The Cat Water Delivery System (WDS) connects with Cat MineStar™** providing data-driven insights to make informed decisions. Cat WDS automates water output and spray patterns to help reduce overwatering. Auto Mode, an exclusive WDS feature, is designed to deliver a more efficient watering technique with better precision and control compared to traditional watering methods.

**Cat Water Delivery System (WDS)**  
equipped with advanced Auto Mode  
for improved performance and control.

**Cat MineStar™ connectivity**  
provides near-real-time information,  
hosted in the cloud, to monitor  
water distribution.

**Application-specific cab**  
with integrated water controls,  
equipped with higher ROPS  
rating for operator safety.

Built on proven **Cat truck platforms**  
for durability, reliability, and efficiency.

**Supported by the global Cat® dealer network**  
and eligible for protection plans / CVAs.

Options range from a fully integrated solution — Cat truck chassis, water tank, Cat Water Delivery System, and Cat MineStar telematics — to water truck conversions, upgrades, and retrofit options.

	WDS 1.0	WDS 2.0	WDS CAMERAS	CANNON NOZZLES	CONNECTIVITY HARDWARE

LRC = Lesser Regulated Countries. HRC = Highly Regulated Countries. GC options available on certain models.

**We offer frontless wheel loaders for tire handler attachments, cable reel handlers, and other industrial applications.** Cat wheel loaders are versatile and can be easily customized to work with various 3rd party OEM attachments for speciality applications.

# CAT MOTOR GRADER

## FOR SPECIALTY APPLICATIONS

	120
CAT ENGINE	C7.1
NET POWER ISO 9249/SAE J1349	97 kW 130 hp
REGION	HRC / LRC
MACHINE WEIGHT	15 906 – 16 499 kg 34,610 – 35,067 lb
BLADE WIDTH	3.7 m / 12 ft
MACHINE SPEED	4.1 km/h – 48.3 km/h 2.6 mph – 30.1 mph

LRC = Lesser Regulated Countries. HRC = Highly Regulated Countries.

**The Next Generation Cat 120 motor grader offers the options of joystick or steering wheel and lever controls.** This motor grader can also be modified to work in an underground mining application.

**Robust design, durable, high-end materials, and precision tolerances make Cat components the obvious choice to complement your machines.** Our team of engineers can help design a customized solution for your specialty machine application.

### CAT HYDRAULICS

Hydraulics make the connection between machine power and job productivity. The Cat hydraulics advantage starts with quality components that deliver high pressure thresholds. They're built to meet the exacting specs of Cat equipment — from power and responsiveness to breakout force and speed, and are easily adapted to work on other equipment.

### CAT DRIVETRAINS

Final drive and transmission parts work together to transmit power to the ground and propel earthmoving equipment through a variety of applications all over the world. Genuine Cat drivetrain parts, along with excellent maintenance and repair options, helps to maximize productivity and lower owning and operating costs.

### CAT AXLES

Cat axles provide high durability, low sound levels, and traction control on uneven or poor terrain. Caterpillar offers a wide variety of models and load capacities. Caterpillar's heavy-duty design withstands the type of shock loading that occurs during all-terrain operation. Oil-disc brakes are adjustment free and fully enclosed.

## CAT TRANSMISSIONS

We develop each transmission to integrate with other powertrain systems and components — including the engine, axle, electronics, hydraulics, and operator interface — to help maximize power and optimize the performance of the complete powertrain system.

## CAT HYDRAULIC PUMPS & MOTORS

Cat hydraulic pumps and motors are precisely designed and manufactured to meet the demanding requirements of Cat equipment, offering the highest standard of quality and reliability in the industry. Ready to power your equipment, these components help to maximize performance and durability for optimal hydraulics system operation.

## CAT TORQUE CONVERTERS

Torque Converters matched to engine speed and horsepower can have a significant positive impact on vehicle performance. Caterpillar OEM Solutions can offer OEMs a world-class selection of convertor types and sizes. We offer a wide variety of configurations available to match specific applications.

## CAT UNDERCARRIAGE

From a full arrangement to individual components, we offer Cat undercarriage integration with 3rd party OEM products. With a collaborative approach, our engineering team will design a solution that compliments specific applications with full support from the global Cat dealer network.

## CAT POWER MODULES

### FOR RAIL / LOCOMOTIVE, AGRICULTURE, AND HAULING

Cat power modules offer an integrated package made of rugged and durable components designed to provide reliable power in various applications. We take a collaborative approach, working with 3rd party OEMs, to ensure the power we provide is the best match for their solutions.

#### CAT POWER MODULES FOR RAIL AND LOCOMOTIVE

MODEL	C9.3B / TR35-E44	C9.3B / TR43-E44	C13B / TR43-E44	C13B / TR43-M44	C18 / TR43-M44

#### CAT POWER MODULES FOR HAULING AND INDUSTRIAL

MODEL	C7.1 / TR16	C11 / CX31	C18 / TA22	C18 / TH43	C27 / TH43
GROSS POWER	168 kW / 225 hp	242 kW / 325 hp	470 kW / 630 hp	570 kW / 765 hp	587 kW / 787 hp
APPLICATION	Hauling: Quarry / Mining	Hauling: Quarry / Mining	Industrial: Agriculture / Construction	Hauling: Quarry / Mining	Hauling: Quarry / Mining

Rail and Hauling Power Modules are only available for lesser regulated countries.

Optional cooling packages are also available.

## CAT TRANSMISSIONS

### FOR CUSTOM SOLUTIONS

We develop each transmission to integrate with powertrain systems and components – including the engine, axle, electronics, hydraulics, and operator interface – to help maximize power and performance of the complete system.

	TR16	TR35	TR43	TH43	TA19	TA22	CX31
GROSS POWER	151 - 201 kW 201 - 270 hp	250 - 280 kW 335 - 375 hp	340 - 470 kW 456 - 630 hp	587 kW 787 hp	243 - 320 kW 326 - 429 hp	440 - 470 kW 590 - 630 hp	242 kW 325 hp
ENGINE PAIRING	C7.1	C9.3B	C13B, C15, C18	C18, C27	C9.3B, C13, C15	C15, C18	C11
PURPOSE	Off-highway	Rail, Off-highway	Rail, Off-highway	Off-highway	Agriculture	Agriculture	Off-highway, On-highway

**We recommend pairing a Cat transmission with a Cat engine for optimal performance.**

Our engineering team can recommend a transmission that will work best for your purpose-built machine application.

# CAT CABS

## FOR INDUSTRIAL APPLICATIONS

Save time and money using pre-built cabs, ready to integrate with existing OEM designs.

We offer both off-highway truck and excavator style cabs. From a collaborative designed solution to a modular cab for custom modifications – we have flexible options to fit a variety of machine configurations.

### CAB STYLE: OFF-HIGHWAY TRUCK

DESIGNED FOR HEAVY-DUTY APPLICATIONS  
WITH DUAL OPERATOR STATIONS

LARGE WINDOWS FOR GREATER VISIBILITY

CUSTOMIZABLE WITH REGULATED GLASS  
FOR HIGH HEAT APPLICATIONS

BUDDY SEAT FOR TRAINING

PRESSURIZED SPACIOUS CAB  
WITH HVAC SYSTEM

COMFORTABLE SEAT SWIVELS  
FOR BI-DIRECTIONAL OPERATION

# CUSTOM CAB CONFIGURATIONS

If you're looking for a basic cab to fit onto your machine, we can offer that as well. We can work with you to remove anything you may not need, including the seat.

## CAB STYLE: EXCAVATOR

DESIGNED FOR LIGHT-DUTY APPLICATIONS  
WITH FLEXIBILITY FOR CUSTOM MODIFICATIONS

DURABLE CAB FRAME

INTERIOR PANELS WITH HVAC SYSTEM

OPTION TO REMOVE SEAT

## CAT UNDERCARRIAGE

FOR DRILLS, CRUSHERS, CONVEYERS, APRON FEEDERS, AND MORE.

Cat undercarriage systems provide efficient hydraulic power and enhanced track motion control. Our undercarriages serve the construction, material handling, quarry, mining, and forestry industries in a wide variety of ways, delivering lower operating and maintenance costs.

### COMPLETE SOLUTION AND PARTIAL ARRANGEMENTS

DESIGNED FOR 3RD PARTY OEM PRODUCTS

We offer complete undercarriage systems, partial arrangements, and individual components.

Carrier rollers, track rollers, track links, and track shoes are also available.

Customizable paint colors are available upon request.

### DELIVERING PROVEN PERFORMANCE

- » Cat undercarriage is factory and field tested.
- » With long wear life and low operating costs, Cat undercarriage delivers a high return on investment.

### DESIGNED FOR SPECIFIC APPLICATIONS

- » Caterpillar engineers understand how demanding applications can wear undercarriage components – so they design them as a system.
- » Each undercarriage is built to take on specific conditions such as sand, gravel, mud, and clay.

### QUALITY BUILT IN

- » Because Caterpillar manufactures its own undercarriage, every component meets strict specifications and quality standards.
- » Durable, reliable components result in lower operating costs.

These undercarriage options are designed to integrate into 3rd party OEM machines.

Our team of engineers can help you determine the best option for your application.

# WARRANTY POLICIES

## FOR MACHINES AND COMPONENTS\*

The specific warranty policy is described in our standard terms and conditions and referenced by the SELF numbers shown below.

### OEM PARTS | SELF 5589:

1 year / unlimited – no labor

### OEM MACHINES & SERIALIZED COMPONENTS | SELF 5702:

1 year / unlimited – reasonable labor

### OEM LOCOMOTIVE | SELF 5551:

2 year / 3,000 hour – reasonable labor

\*Global OEM Solutions warranty is valid in any Cat dealer region and is non-transferrable.

**For more information on warranty registration, visit:**

[https://www.cat.com/en\\_US/by-industry/oem-solutions/warranty.html](https://www.cat.com/en_US/by-industry/oem-solutions/warranty.html)

## OEM SOLUTIONS

**Our goal is to maximize Caterpillar content on your OEM products, providing the benefit of Caterpillar quality, reliability, serviceability, and availability.** And when you use Cat content in your machine, you gain access to the Cat dealer network. When customers buy our products, they know they will be supported by the most capable and reliable global service network in the world.

**For more information, contact OEM Solutions:**
