

TOWHAUL
LOWBOY TRAILER

Overview

Located in Belgrade, Montana, with equipment impacting mining operations on six continents, TowHaul has built a reputation for unmatched engineering and quality on the back of nearly 50 years of industry leadership.

Led by the rugged TowHaul Lowboy and Multi-Purpose Gooseneck, TowHaul equipment is designed to perform in the most remote environments and challenging conditions around the globe, ensuring reliability and efficiency for operators and mine sites alike.

CATERPILLAR OEM SOLUTIONS

LOWBOY TRAILER

The epitome of engineering excellence, the front-loading lowboy stands as TowHaul's flagship product. This low-profile, modular marvel is a testament to versatility, designed to enhance the flexibility of your fleet.

Capable of transporting a wide array of tracked equipment, it is the ideal companion for any surface mine. Its innovative design allows for seamless integration into various work environments, ensuring that your operations run smoothly and efficiently.

Every feature of the TowHaul Lowboy is crafted with the user's experience at the forefront.

From the ground up, it's built for convenience — its modular nature ensures ease of shipment and assembly, minimizing downtime and maximizing productivity. The robust, single, haul truck-style axle provides stability, while the expansive loading platform accommodates a diverse range of equipment.

Customization is key — each lowboy is tailored to meet the unique needs of our clients, ensuring that your specific requirements are met with precision and care. TowHaul's commitment to quality and customer satisfaction is evident in every lowboy that rolls out into the field.
