

CAT[®] MINESTAR[™] HEALTH OFFICE

INTRODUCING A NEW, INTUITIVE INTERFACE

Unplanned downtime drains efficiency, productivity and profit. Cat[®] MineStar[™] Health Office helps you stop failures before they stop you, with real-time insights and historical machine data. And now, with the new Health Data Visualization interface, fleet monitoring is easier than ever — so you can spot issues sooner, take action faster and keep your operation running at peak efficiency.

FASTER, SMARTER, EASIER FLEET HEALTH

**FEWER CLICKS.
MORE INSIGHTS.
FASTER RESULTS.**

Fully graphic. Simple to use. Accessible from any web browser.

The new Health Data Visualization interface is set up to help you make better, faster, data-driven maintenance decisions.

Here's how:

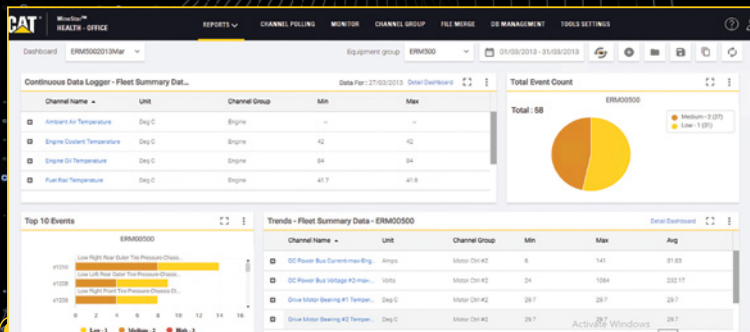

- + Customize dashboards with several widgets to get the exact data you need at a glance.
- + Monitor live events and channels on multiple machines in real time.
- + View multiple machines simultaneously to get a historical fleet-wide perspective.
- + Organize equipment into groups to compare performance and establish benchmarks.
- + Analyze trends, histograms and sensor data to identify patterns before they become problems.
- + Eliminate complex reporting and use built-in charts, trend summaries and drill-down tools for instant insights.

WHY HEALTH OFFICE? REDUCE DOWNTIME. BOOST AVAILABILITY.

Health Data Visualization is just one feature of Health Office — a powerful maintenance tool that gives you real-time machine data to improve equipment reliability and reduce unscheduled stoppages. With Health Office, you can:

- + Track performance across your fleet — Cat machines and other supported brands.
- + Receive instant alerts — take action immediately when abnormal machine conditions occur.
- + Use channel polling — view live machine operating parameters for diagnostics and troubleshooting.
- + Analyze historical machine data — identify trends to improve maintenance strategies.
- + Prevent failures before they happen — reduce the risk of lost productivity and costly repairs.

READY TO KEEP YOUR FLEET RUNNING LONGER?

Health Office and the new Health Data Visualization interface give you the insights you need to keep your fleet running efficiently and profitably. Whether you're looking to upgrade your system or just getting started, your local Cat dealer is ready to help.

Get in touch today and take control of your fleet's health.

SMARTER INSIGHTS FOR EVERY ROLE

Health Office and the new Health Data Visualization interface aren't just for one department. They deliver critical insights for users across your mine site.

- + **Maintenance and repair teams** can leverage live and historical machine data for better troubleshooting, proactive service and optimized scheduling.
- + **Reliability engineers** can compare fleet-wide trends, analyze long-term performance and refine maintenance strategies to help extend machine life and reduce costs.
- + **Control room operators** can monitor real-time alerts and machine data to stay ahead of issues before they disrupt operations.

SEAMLESS INTEGRATION

Already using MineStar Fleet, Command or Terrain? These lay the foundations for Health Office to integrate into.

Plus, it runs on your local servers, so your data stays private.

Not a MineStar user yet? No problem. You can use Health Office on its own. It's a great way to get started with the technology.
