CAT® REMAN LONG BLOCKS
SAVE YOU TIME AND MONEY
ON REPAIRS

NOT ALL OVERHAULS ARE CREATED EQUAL

Getting ready for the second, third or even fourth overhaul on your Cat® heavy-duty on-highway truck engine? A standard overhaul that includes reusing the block, crank and other components may not be the right choice. As those components enter successive overhaul cycles, the chances that they'll need to be replaced or machined increase greatly — turning an in-frame rebuild into a more time-consuming and costly out-of-frame rebuild.

The solution? Cat Reman heavy-duty long blocks. Available in two options to fit different needs, Cat Reman long blocks and Cat Reman long blocks with new content come fully assembled with the parts you need for a quick, quality repair—parts that add up to big savings in downtime, labor and overhaul costs.

**BIG SAVINGS IN ADDED PARTS
THAT ARE ALREADY INCLUDED**

**2 REPAIR OPTIONS
TO FIT YOUR NEEDS**

**IDEAL FOR 2ND, 3RD
AND 4TH OVERHAULS**

WHICH REPAIR OPTION IS RIGHT FOR YOU?

1

CAT REMAN LONG BLOCKS:

Cat Reman long blocks are completely disassembled, thoroughly cleaned, fully inspected for damage, remanufactured to original Caterpillar specifications with critical engineering updates and tested to deliver like new performance. Choose Cat Reman if your existing core is still in good condition — you'll get the quality you want at a more cost-effective price.

2

CAT REMAN LONG BLOCKS WITH NEW CONTENT:

Cat Reman long blocks with new content give you the chance to repower your truck without starting from scratch. They contain 100% new cylinder blocks, crankshafts and cylinder heads, giving you more life expectancy, enhanced overhaul potential and peace of mind. With this option you don't need to worry if your core is damaged as it gives full core credit for most cores, even rusted and corroded ones. It's like resetting your engine and giving the heart of your truck a jump-start.

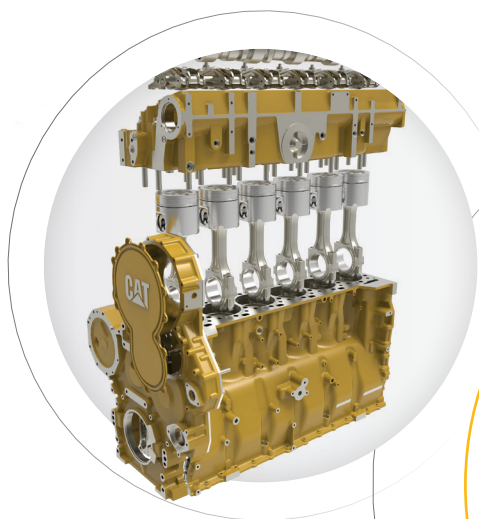

» BOTH REPAIR OPTIONS SAVE YOU TIME AND MONEY

- No need for reusability determination
- No dealing with broken bolts
- No need to measure liner projection
- No need to outsource machining work

Plus, Cat Reman long blocks with new content help reduce the risk of reusing key components during an overhaul, like the crankshaft and cylinder block.

» RECEIVE CREDIT¹ FOR YOUR USED CORE FOR CAT REMAN LONG BLOCKS WITH NEW CONTENT

IF YOU EXPERIENCE THESE CATASTROPHIC ENGINE ISSUES, YOU MAY STILL QUALIFY FOR CORE CREDIT:

EVEN THESE
GET YOU
- CORE -
CREDIT

BROKEN
CRANKSHAFT

DAMAGED AND/OR
VENTILATED BLOCK

EXCESSIVE RUST
AND CORROSION

FIRE
DAMAGE

¹ Core conditions apply.
