## Routing Guide-North America

This routing and shipping guide has been developed for North American suppliers who ship to **Progress Rail Locomotive (PRL)**, its suppliers and/or affiliates within the US, Canada, and Mexico. All sections of this guide apply to all suppliers initiating shipments where PRL is responsible for the freight costs associated with the movement of material per the Incoterm.

**All transportation costs and other freight-related expenses incurred by PRL as a result of the supplier's non-compliance with the terms and conditions listed below in sections 1 - 3 shall be charged back, in their entirety, to the supplier. Additionally, carrier detention and expedite shipment charges incurred when PRL is not at fault will also be charged back to the supplier.**

Listed below are general instructions to follow when shipping PRL material within North America.

1. Shipments weighing 150 pounds (68 kilos) or less are to be routed with UPS Small Package (Not UPS Supply Chain Services or UPS Freight) via **“ground”** service.
  - a. See page 6 to locate the appropriate shipping account number corresponding to the destination of your shipment.
  - b. Before arranging pick up, consult UPS [dimension and packaging restrictions](#) for standard ground service
  - c. Do not fill in the “Declared Value” box for insurance.
  - d. List the PRL purchase order (PO) number in “Reference1” field.
  - e. List the purchase order line item number in “Reference2” field.
  - f. If necessary, call UPS at 1-800-742-5877 for a pick up.
  - g. Expedite shipments (any service other than “ground”): contact your designated material planner or buyer to initiate a premium transportation authorization (PTA)
  - h. Shipments destined to San Luis Potosi, Mexico reference see below for more info.

The only exception to the above is parcel sized shipments moving from Canada to the United States. Those will move DHL Express. Please send PS, CI, and COO along with weights and dimensions to [cjenkins@progressrail.com](mailto:cjenkins@progressrail.com) and a label will be returned to you.

2. Shipments weighing in excess of 150 pounds (68 kilos) are to be routed with Coyote Logistics/RXO.
  - a. All requests for transportation within the **US, Mexico, and Canada** are initiated by logging into <https://claw.coyote.com>. To request a user ID, email [PRL@rxo.com](mailto:PRL@rxo.com). Double click file [below](#) to access the claw.coyote.com user manual.
  - b. **Bill of Lading 3<sup>rd</sup> Party Bill to: “Electro Motive % Syncada, PO Box 3001, Naperville, IL 60566”**

*A Caterpillar Company*

- c. All communications and paperwork exchanges associated with shipments moving to or from Mexico/Canada shall be executed via [EMDintl@rxo.com](mailto:EMDintl@rxo.com). For further guidance, see below. Pick up requests are to be initiated 72 hours in advance of the requested pick up date.
  - d. Order entries submitted in the portal by noon Eastern Time will be picked up no earlier than the next day.
  - e. Order entries submitted in the portal after noon Eastern Time will be picked up no earlier than two days out.
  - f. Suppliers are required to provide the PRL purchase order (PO) number, purchase order line number, and purchase order schedule line number when requesting a pick up.
  - g. Coyote will arrange for a pick up and provide a *pick up number*.
  - h. To change a submitted pick up request, contact Coyote/RXO at [PRL@rxo.com](mailto:PRL@rxo.com) or (773)-360-5622 or (414)-840-3770 with a reference number you included with your entry, at least 24 hours in advance of pick up date.
  - i. To reach a Coyote/RXO representative, e-mail [PRL@rxo.com](mailto:PRL@rxo.com) or dial (773)-360-5622 or (414)-840-3770.
  - j. Expedite shipments (any service other than standard ground): contact your designated material planner or buyer to initiate a premium transportation authorization (PTA)
3. Suppliers are required to create the following paperwork. Failure to supply proper documentation can delay border crossing and payment for material.
- a. A **packing list** per shipment as defined on page 24 of the "[Supplier Packaging and Shipping Guide](#)".
  - b. A **bill of lading** per shipment as defined on page 24 of the "[Supplier Packaging and Shipping Guide](#)". There is no required format for a bill of lading. However, all packing lists contained in the shipment and Coyote's assigned pick up number must be displayed on the document. UPS shipments do not require a bill of lading.
