Chief Executive Officer

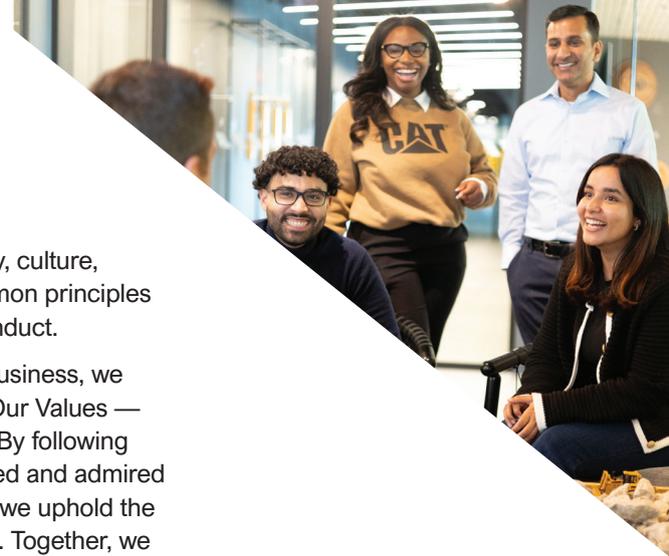

# WINNING THE RIGHT WAY

## **SAFETY. INTEGRITY. TEAMWORK. EXCELLENCE. COMMITMENT.**

The words in this Code of Conduct define us. Despite our differences — in geography, culture, language and business — we are one Caterpillar, one company united by these common principles with a shared commitment to Winning the Right Way and the highest standards of conduct.

While we operate within the framework of the laws and regulations that apply to our business, we hold ourselves to a higher standard. Our responsibility extends beyond compliance; Our Values — Safety, Integrity, Teamwork, Excellence and Commitment — guide everything we do. By following the Code, we create a work environment we all can take pride in, a company respected and admired by others and a world made better by our actions. Winning the Right Way means that we uphold the reputation of one of the world's greatest companies — and strengthen it for tomorrow. Together, we are strengthening our values-based culture to carry us forward to even higher levels of success.

This Code of Conduct applies to the daily activities of employees of Caterpillar Inc., its subsidiaries and affiliates worldwide and members of its Board of Directors. We all have a personal responsibility to understand the Code, apply it consistently and live Our Values. If we lead others, we are also responsible for setting the example of what it means to Win the Right Way.

# REPORTING RIGHTS & RESPONSIBILITIES (CONTINUED)

You must report responsibly and only when you reasonably believe there has been a violation, and not where the report is intended to be harassing or is based solely on personal opinion.

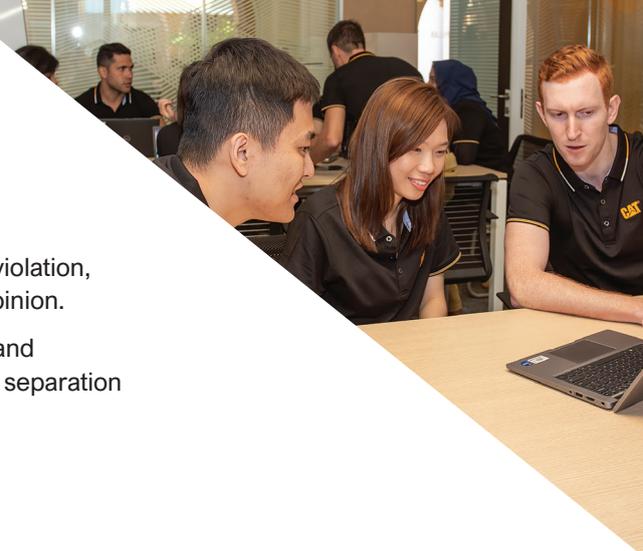

Violations of Caterpillar policies, procedures or this Code will be addressed promptly and effectively. Violations may result in disciplinary action up to and including employment separation in accordance with company policy and applicable law.

## NO RETALIATION

Speaking up takes courage, and we are committed to helping you feel safe and supported in doing so.

Caterpillar has a zero-tolerance policy for retaliation. We strictly prohibit any form of retaliation — including unfair treatment, demotion and exclusion from opportunities — against anyone who raises concerns or reports potential misconduct in good faith.

If you believe you are experiencing retaliation, report it immediately. We will take all appropriate and necessary actions to address and resolve the matter.

# SAFETY

**CARE. LEARN. PREVENT.**

## **SAFETY IS AT THE CORE OF WHO WE ARE**

It drives us to protect what matters most — our people. We speak up when we see a way to make things safer, and we listen to each other — learning together and improving as one team. We prevent serious injuries by focusing on tasks that can lead to serious harm and measure our success by the presence of controls and safeguards to protect our workers when things go wrong. We are built to care, fueled by learning and powered to prevent.

# SAFETY

## WE PUT SAFETY IN ACTION WHEN...

### WE DEMONSTRATE CARE AND FEEL SAFE TO SPEAK UP

Demonstrating care is our foundation.

- We recognize how we respond matters.
- We build trust and respect with each other by actively listening, showing empathy and staying curious to learn from those closest to the work.
- We support an open and caring culture where employees feel empowered to speak up by remaining humble and seeking to understand.

### WE LEARN TOGETHER TO CONTINUOUSLY IMPROVE

Learning and improving is vital.

- We foster a learning culture where we learn together from our mistakes and successes.
- We seek to understand the context when things go wrong rather than assign blame.
- We see our people as the experts and recognize that those closest to the work have the best knowledge of how work can be done successfully.
- We use their insights to strengthen our controls and safeguards.

# SAFETY

## WE PREVENT SERIOUS INJURIES BY FOCUSING ON HIGH ENERGY

Preventing serious injury is critical.

- We recognize that people make mistakes and things will go wrong at times.
- We work to control high energy tasks and improve the presence of safeguards — so that even when things do not go as planned, our people are protected.
- We define safety success as the presence of controls and safeguards rather than the absence of injuries.

## OUR ACTIONS MATCH OUR WORDS

Safety is a shared mindset we integrate in all that we do.

- We engage everyone — employees, leaders, contractors and visitors — in our safety program.
- We see safety as a state of mind that we embrace at work, on the road and at home.
- We recognize proactive safety actions and share stories to learn from each other.

## HOW WE RESPOND MATTERS

Safety is at the core of who we are, and how we respond to concerns directly impacts how much we can learn from one another. Speaking up about safety is not just important, it's essential. It's how we build trust, improve controls and ensure that everyone goes home safely, every day. Leaders play a vital role in fostering a learning culture by staying curious, encouraging open dialogue and creating space for others to speak up. When individuals feel safe to raise concerns, we unlock the opportunity to learn, grow and prevent harm.

# INTEGRITY

**DO THE RIGHT THING**

## **INTEGRITY IS THE FOUNDATION OF ALL WE DO**

It is a constant. Those with whom we work, live and serve can rely on us. We align our actions with our words and deliver what we promise. We build and strengthen our reputation through trust. We do not improperly influence others or let them improperly influence us. We are respectful and behave in an open and honest manner. In short, the reputation of the enterprise reflects the ethical performance of the people who work here.

# INTEGRITY

## WE PUT INTEGRITY IN ACTION WHEN...

### WE AVOID AND MANAGE CONFLICTS OF INTEREST

Separating personal interests from company business builds trust.

- We avoid activities that create, or even appear to create, a conflict of interest.
- We recognize that conflicts of interest arise when personal, family or other relationships make it hard to fairly represent Caterpillar.
- We understand roles involving company spending, hiring or access to confidential information carry a higher risk of conflicts of interest.
- We only exchange gifts and entertainment that are reasonable in value and comply with all laws and our policies and procedures.

### WE COMPETE FAIRLY

Fair competition is fundamental to free enterprise.

- We observe antitrust and competition laws where we do business.
- We avoid arrangements with competitors, dealers, distributors, suppliers and customers that restrict competition.
- We do not engage in discussion or agreements with competitors about price, terms of sale, quantities sold or allocating customers.
- We do not make agreements with other companies on wages, benefits or hiring.

# INTEGRITY

## **WE SUPPORT FREE TRADE AND FOLLOW INTERNATIONAL TRADE LAWS**

Free trade fosters competition, drives continuous improvement and helps us better serve our customers globally.

- We support and promote policies that enhance global competition and reduce or eliminate trade and investment barriers.
- We follow applicable international trade laws including import and export controls regulations, sanctions and anti-boycott laws.
- We comply with trade laws and regulations in the countries where we do business.

## **WE CREATE ACCURATE AND COMPLETE FINANCIAL RECORDS AND REPORTS**

Building trust with investors, creditors, regulatory authorities and others depends on the integrity and accuracy of Caterpillar's financial and accounting information.

- We create accounting and financial records that accurately reflect the data and facts.
- We all share the responsibility to create true, correct and complete financial records and follow internal controls.
- We apply the same standards of integrity and transparency to our internal financial reporting and management reporting tools as we do to our external reporting.

# INTEGRITY

## **WE ARE HONEST, CLEAR AND RESPECTFUL IN OUR COMMUNICATIONS**

Transparency is essential for building trust with one another and with our stakeholders.

- We take our responsibility as a public company seriously, communicating with all stakeholders in a respectful, fair and honest manner.
- We make full, timely and accurate disclosures to the U.S. Securities and Exchange Commission and to other governmental and regulatory agencies.
- We maintain consistency in our public communications, releasing messages transparently and impartially, without favoring any group or individual.
- We understand that only designated spokespersons may communicate on behalf of Caterpillar or respond to requests for information from the media, governments, analysts and stockholders.

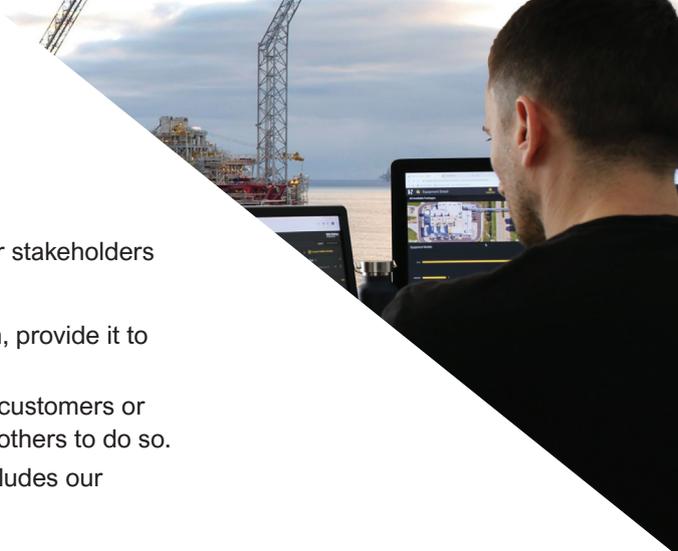

# INTEGRITY

## WE HANDLE ALL COMPANY INFORMATION THE RIGHT WAY

Protecting inside information is important to establishing trust with one another, our stakeholders and the public at large.

- We do not use “material” inside information about Caterpillar for personal gain, provide it to others or use it to trade in Caterpillar securities.
- We do not trade in the securities of a third party (including dealers, suppliers, customers or competitors) if we possess their material inside information, nor do we advise others to do so.
- We are all responsible for following Caterpillar’s insider trading policy. This includes our families and others with access to inside information.

**Inside information** is non-public company information — such as financial data, technical materials or future plans — that could have significant value to others. It may be considered material if an investor would consider it important when making an investment decision, and it must be kept strictly confidential.

# INTEGRITY

## WE REFUSE TO MAKE IMPROPER PAYMENTS

Our reputation for honesty and integrity is built on our ethical conduct.

- We will not influence the acts or decisions of any public officials, or other corporations or private citizens, either directly or indirectly, through improper payments such as bribes or kickbacks.
- We understand how to recognize potential bribes and kickbacks and will report any requests for improper payments or inappropriate business courtesies immediately.
- We carefully manage our relationships with third parties and dealers and conduct due diligence as required by our procedures.
- We record all financial transactions accurately and honestly.

## HOW WE RESPOND MATTERS

Integrity is the foundation of all we do. When you speak up about misconduct or concerns, you help build trust across the organization. We recognize mistakes can provide opportunities to learn and grow together. Leaders listen, take action and lead by example — showing what it means to Win the Right Way through honesty and trust.

# TEAMWORK

**WIN TOGETHER**

## **WE HELP EACH OTHER SUCCEED**

We are a team, sharing our unique talents to help those with whom we work, live and serve. The diverse thinking and decision making of our people strengthens our team. We respect and value people with different opinions, experiences and backgrounds. We know that by working together, we can produce better results than any of us can achieve alone.

# TEAMWORK

## WE PUT TEAMWORK IN ACTION WHEN...

### **WE TREAT OTHERS WITH RESPECT AND DO NOT TOLERATE INTIMIDATION OR HARASSMENT**

A commitment to respect, trust and dignity helps everyone achieve their full potential.

- We create and foster a work environment free of intimidation and harassment.
- We have the right to expect a positive working environment.
- We have the responsibility to speak up and ask for change if we observe behavior that does not align with Our Values.

A productive and motivated workforce thrives when everyone is treated fairly and equitably.

- We respect and recognize the contributions of all employees and stakeholders.
- We build trust by selecting and placing employees based on their qualifications, considering accommodations as appropriate.
- We make employment decisions without regard to race, religion, national origin, color, gender, gender identity, sexual orientation, age and/or physical or mental disability.
- We follow all laws that prohibit discrimination everywhere we do business.

# TEAMWORK

## WE OPERATE INCLUSIVELY WITHIN OUR COMPANY AND AROUND THE WORLD

When people with diverse backgrounds, talents and experiences work together, they drive innovative solutions and achieve superior results.

- We embrace the unique talents, skills, abilities, cultures and experiences of all individuals.
- We build trust by seeking out and being receptive to various points of view.
- We work to positively impact the people and communities we serve.

## HOW WE RESPOND MATTERS

Excellence means setting and achieving ambitious goals. When we speak up to improve a process, product, quality or service, we spark innovation and create opportunities to grow. Leaders bring this to life by turning challenges into action and helping their team move forward.
