

CAT[®] CVA^s

Take control of your Ground Engaging Tools (GET).
CAT[®] GET CVA^s deliver tailored plans, predictable costs and expert support. Enhance productivity *and* reduce downtime.

GROUND ENGAGING TOOLS

CAT GET CVA

THE BASICS

WHAT

MANAGE YOUR GET WITHOUT THE GUESSING GAME.

Ground engaging tools (GET) are small components that make a big impact. Unexpected failures can raise operation costs and slow down production. Consistent GET management helps keep jobsites running more efficiently.

Predictable GET Management Starts with a CVA.

Cat GET CVAs give you a proactive, customized plan for managing your entire GET system, not just individual parts. From wear-life analysis to parts planning and expert recommendations, you can monitor wear, replace parts in real time and budget for exactly what you need. Get clarity, consistency and confidence in one of your highest-impact machine systems.

YOU GET:

- + On-time parts for planned maintenance
- + Easy GET management with expert support
- + A tailored approach for your operation and machine’s needs
- + Predictable and lowered costs
- + Supported inventory management
- + Connectivity with machine technology and data

CAT GET CVA

THE BENEFITS

WHY

THE RIGHT PRODUCT FOR THE JOB STARTS WITH AN ASSESSMENT.

Every job site is different. A GET CVA begins with a comprehensive site assessment to ensure you’re running the right product for your material, application and production goals.

- + On-site evaluation of material type, abrasion levels and machine application
- + Expert recommendations to optimize tool selection and configuration
- + A full-system approach focused on compatibility and efficiency

Begin with the right set up made specifically for your operation.

A TAILORED PLAN WITH PREDICTABLE COSTS.

A GET CVA turns wear into a planned, predictable cycle with a clear strategy built around your operation.

- + Personalized pricing structures designed for your operation needs
- + Proactive and planned maintenance and replacement cycles
- + Planned spend mapped out over time for predictable cash flow
- + Accurate wear-life and wear-rate analysis

Know what’s coming and plan ahead with confidence.

GET PARTS WHEN YOU NEED THEM.

Parts availability you can count on. A GET CVA helps ensure critical components are ready when the job demands them, along with the support you need to keep your job moving.

- + Inventory and parts planning to ensure critical components are readily available.
- + Prescheduled inspections to monitor condition and performance
- + Dealer support for faster responses and reduced downtime

Get the most out of your equipment, with a plan built for your operation.

CAT GET CVA

IS IT FOR YOU?

WHO

THIS CVA IS DESIGNED FOR:

- + Construction operations running machines with Cat GET
- + Operations that depend on reliable, consistent supply of GET parts
- + Those looking for support with real-time insights and expert guidance
- + Mixed-fleet operations needing a single and consistent GET strategy
- + Sites with conditions and applications that impact GET utilization

NEXT STEPS

HOW

GETTING STARTED IS SIMPLE.

- 1. Connect with your Cat dealer.** Discuss your operation, wear patterns and your productivity goals.
- 2. Get a site assessment.** Your dealer will evaluate your GET configuration, wear rate and performance needs to build you a solution for your operation.
- 3. Build your customized GET CVA plan.** Work with your Cat dealer to outline a schedule for inspections, replacements and costs.
