

CAT® INTEGRATED PROCUREMENT

Buy Parts With Greater Efficiency

SERVING HUNDREDS OF CONNECTIONS WITH MILLIONS OF TRANSACTIONS

The right Cat® parts delivered exactly when and where you need them – that's what Cat Integrated Procurement (or Cat IP) does to help keep your equipment and operations running smoothly. With Cat IP in your back pocket, this business-to-business solution streamlines parts requisitioning, ordering, and invoicing by connecting your procurement system directly with the Cat dealer's procurement system.

Do you experience a high volume of repeat orders and returns every year?

Do you spend an excessive amount of time placing orders every day?

Want a customized and automated purchasing process?

Want to reduce operational costs for parts ordering and purchase order and invoice reconciliations?

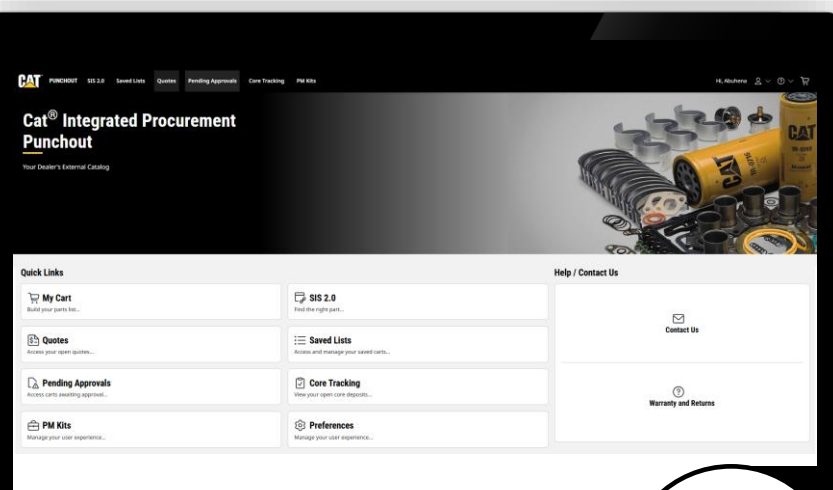

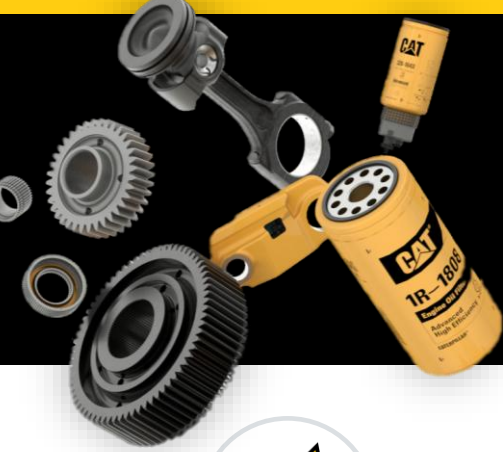

Looking for efficiency, accuracy, and control in every parts transaction?

THEN CAT IP MAY BE **THE RIGHT SOLUTION FOR YOUR BUSINESS.**

Plus, there are *no standalone transaction fees* from Caterpillar to use Cat IP.

YOUR TIME IS VALUABLE. STOP WASTING IT.

Cat IP is a proven solution that has powered many of the largest customers across the globe for over 20 years. Saving time and money is fundamental for any business, which is why Cat IP optimizes operations and streamlines procurement efficiency, which can result in cost reductions, time-savings, and process simplification – all in one trusted place.

IT'S CUSTOMIZABLE.

- **See real-time, customer-specific pricing and part availability** personalized to your business.
- **Shop new, Cat Reman, Cat Classic, dealer exchange, and used parts** – available 24/7.
- **Lower transaction costs** by reducing more costly off-contract spending.
- **Simplify your procurement process** with custom settings that cut steps, speed up ordering, and best fit your business goals.

IT'S RELIABLE.

- **Minimize duplicate orders and returns** with smart search tools that help identify the correct replacement parts.
- **Stay informed with order acknowledgements and status updates** for better visibility.
- **Access technical parts and service information online**, including Planned Maintenance checklists and Service Information System (SIS).
- **Connect securely** using the latest, trusted security systems and processes.

IT'S TIME-SAVING.

- **Free up purchasing time** so your team can focus on higher-value work, like sourcing, supplier negotiations, and contracting.
- **Save time on repeat orders** with Saved Lists – no retyping part numbers required.
- **Reduce order errors and avoid wasted time** for purchasing and shipping/receiving teams.
- **Minimize equipment downtime** by ordering the right parts every time.

READY TO GET STARTED?

1

Ensure your business or procurement system can **send and receive XML through a secure HTTPS internet connection.**

2

Your IT and business resources should understand current business systems and **have the capacity to support implementation.**

3

Connect with a local Cat dealer today to get started or visit cat.com/ip for more information about Cat IP.
