

ETT

WATER TANKS

Overview

Founded in 1995, ETT is a specialist engineering and manufacturing company delivering world-class specialised support equipment for mining and construction industries. With a global footprint spanning more than 28 countries, ETT engineers innovative, purpose-built solutions that enhance safety, productivity, and operational performance in the world's toughest environments.

CATERPILLAR OEM SOLUTIONS

ETT WATER TANKS

ETT supplies a comprehensive range of water tanks engineered for rigid and articulated trucks across mining, construction, and quarrying. Designed around specific customer and truck requirements, they combine a low center of gravity for enhanced stability with robust construction, minimal maintenance, and long service life.

Tanks are fitted with ISO-certified safety features and stainless-steel piping and fittings, while the ETT Constant Deposition Rate (CDR) Spray System delivers precise, efficient, and safe water deposition. The result is dependable dust suppression performance, with reduced operating costs and lower total cost of ownership in demanding environments.

Articulated Truck Water Tanks
ETT manufactures a complete line of water tanks for Cat articulated bare chassis.
Tank capacities range from 23,000 liters / 6,000 gallons to 42,000 liters / 11,000 gallons.

Rigid Frame Truck Water Tanks
ETT manufactures a complete line of water tanks for Cat rigid frame off-highway bare chassis.
Tank capacities range from 36,000 liters / 9,500 gallons to 230,000 liters / 60,800 gallons.

CAT® MODEL COMPATIBILITY:
» Cat 725 through 745 Articulated Truck Bare Chassis
» Cat 770 through 793 Off-Highway Truck Bare Chassis

OEM CONTENT:
» Full range of rigid and ADT options
» Constant Deposition Rate (CDR) Spray System
» Powerful water cannon
» ISO-certified steps and handrails
» Internal anti-corrosion coating protection options
