For Global Release: November 23, 2026

Perkins appoints MechElectric Power Solutions Ltd as a distributor in Bangladesh

Perkins Engines Company Limited has entered into an agreement appointing MechElectric Power Solutions Ltd as an authorised Perkins distributor in Bangladesh, effective October 15, 2026.

Based in Dhaka, MechElectric Power Solutions has been appointed for the team's extensive industry and technical experience, an already strong presence across the country and its appreciation for the responsibilities of protecting and growing the Perkins brand while delivering a positive customer experience.

MechElectric Power Solutions will be responsible for delivering Perkins genuine parts, service and product support across Bangladesh, where demand for reliable machinery and power systems is expected to grow in the electric power generation, construction and industrial sectors.

To support its Perkins-powered customers, MechElectric Power Solutions also has an operational branch in Chittagong, with warehouses providing quick access to genuine parts in Ashulia, Bhulta and Chittagong.

Led by general manager Al Amin, the MechElectric Power Solutions team has significant prior experience with industrial engines, technical expertise and delivering exceptional customer service. MechElectric Power Solutions will be focused on keeping Perkins-powered machinery in Bangladesh operating productively.

Richard Hemmings, vice president of global sales, marketing, service and parts at Perkins said: "MechElectric Power Solutions has more than 20 years of industry experience and a strong presence in Bangladesh, which will enable them to move quickly to support our customers' toughest challenges. Leveraging an established logistics network, its technical expertise and customer support infrastructure, MechElectric Power Solutions is focused on delivering world-class support for the Perkins engines population across Bangladesh."

Mr Amin said: "To support the industrial growth we're seeing across Bangladesh, we're focused on quickly expanding customer access to genuine parts, technical support and aftermarket services. Our
