**HBF Balances Ergonomic Design and Aesthetic Beauty with Harmoni Table**

*- Partnership with SPACE Copenhagen Highlights Fine  
Craftsmanship with a Personal Touch -*

**Hickory, NC - June 2017** – HBF has masterfully combined form and function for their 2017 collaboration with Danish design group SPACE Copenhagen, resulting in the exquisite handcrafted Harmoni Table.

True to the HBF aesthetic, the piece evokes a modern perspective with a unique design. Harmoni provides a lasting, pragmatic table that is also refined and rich in sensory experience with its uncommon yet chic shape. The Harmoni tabletop, made with solid light Ash wood, is entirely curved, with the exception of the very center. This graceful slope and intuitive shape comfortably fits the table edges to the shape of the human body, creating an approachable, communal piece. Harmoni's design form humanizes the classic office table and reinvigorates the corporate environment, blurring the line between the office and the home.

The Harmoni is not only aesthetically versatile, but is also technically designed to be functional in a variety of different environments. The piece is flexible and adaptable in terms of environment and reconfiguration.

Available in varying lengths, widths, and heights, the Harmoni lends itself to a variety of settings and differing needs of the user.

**HBF 900 12TH STREET DRIVE NW, HICKORY, NC 28601**

Created with HBF's high standards for durability and sustainability, Harmoni is built with warm ash that will age gracefully in years to come. The high level of craftsmanship present in the woodworking and seamless detailing with metal accents all add to the Harmoni Table's lasting durability and artisan workmanship. The table is FSC® Certified, and will provide LEED V4 and LEED CI 2009 Contributions.

The Harmoni Table will debut at NeoCon 2017 in the HBF showroom (3-387), along with 10 other new releases from 7 collaborations.

**About HBF**

HBF reveals the intentionality of design in everything we make through attention to detail and impeccable service. Our expertise comes from understanding how furniture creates relationships between people, environments, and objects — a holistic perspective for living and working. Part of a two-hundred year legacy of furniture manufacturing within North Carolina, HBF produces many of our products locally in Hickory N.C. HBF is recognized for its innovative design and craftsmanship; we collaborate with leading designers to produce furniture with an emphasis on craft, comfort and sustainability. For more information visit: [www.hbf.com](http://www.hbf.com).

**About SPACE Copenhagen**

Established in 2005 by Signe Bindslev Henriksen and Peter Bundgaard Rützou, both graduates of the Royal Danish Academy of Fine Arts, SPACE Cph is a Copenhagen-based design practice that creates interior spaces, furniture and objects for luxury and lifestyle clients across the world. Through their work — which includes restaurants such as Noma in Copenhagen — Space Copenhagen has developed a design process that is both emotional and poetic, instilling architectural, interior and furniture design projects with modernism, a strong personal vision and an aversion to the mundane.
