

H B F

THE CORTONA TABLE SERIES

A modern, minimalist table with a light blue glass top and a silver metal base. The table is positioned in the lower half of the frame, with its legs extending towards the bottom right. The background is a plain, light-colored wall and floor, creating a clean and minimalist aesthetic.

THE CORTONA TABLE SERIES

As a complement to the Cortona series of seating, Joe Ricchio brings to HBF his simple and timeless design in the form of Cortona occasional tables. Drawing inspiration from the classic works of Mies van der Rohe and Le Corbusier, these tables stress flowing line and balanced proportion, beautifully embodying the timeless principles of modern design.
