THE DOVE SERIES

THE DOVE SERIES

Inspired by a classic, modern aesthetic, Dove is designed for office, conference and collaborative environments. This swivel tilt series, created by HBF's Kevin Stark, brings contemporary comfort to the table while the elegance of the design is the perfect complement to the executive office. This innovative series features polished aluminum bases and polished arms with an upholstered or urethane arm pad.

Mid and high back chairs feature dual density, energy-absorbing foam that provides the ultimate in seating comfort and lumbar support. To meet the needs of the individual user, Dove chairs are standard with a synchro-tilt mechanism, adjustable seat height and tilt tension and lock. The seat depth is also adjustable.

02

Graceful curves, the flowing profile and meticulous attention to detail enhance the exquisite design aesthetic of Dove chairs when viewed from any perspective. The jewel-like polished aluminum base and arm lend a touch of elegance.

01

03

For increased flexibility, Dove offers optional adjustable arms in black urethane. Adjustment features allow the user to move the arm up and down and in and out, depending on user need.
