The Link Satellite Table boasts multi-purpose use - to hold a coffee during conversation or a laptop during work. Its soft trapezoidal top with a beautifully sculpted edge rests atop a solid, yet lightweight base for ease of movement and flexibility. A counterweight discreetly rests under the top for added stability. How and where we work and relax are changing. Link refers to the functional link between leisure and work, but also the intuitive and emotional link between hospitality, residential and office design. Through the choices and attention to materials and detail the table can serve a functional purpose in office spaces and just as naturally slide into a home or hotel room; whether modern, conservative, edgy or classic.

- Soft curves of the top combined with metal features of the base balance simplicity, industrialism and modern elegance.
- Surface comes standard in Ash. Walnut, Solid Surface and Engineered Quartz tops are available with up-charges.
- Metal base is available in powder coated finishes or polished chrome.
- Thoughtful scale is important as new behaviors and patterns of living and working demand new heights and dimensions.
- Link stands 26” high with its top measuring an overall width and depth of 20” each.
- Soft, trapezoidal shaped top is 3/4” thick with a sculpted edge.

HBF Link Occasional Tables

## Link Occasional Table Finish Options

### HBF High Performance Products

HBF and HBF Textiles have long been leaders in contract furnishings and known for industry-leading product design coupled with the highest quality construction, comfort and aesthetic beauty.

Now these same principles are the cornerstones of HBF Healthcare high performance products. We have consulted with healthcare designers and clients to provide products and options for interiors that will provide quality sustainable design solutions for the future. These effective solutions will address the unique interactions required by any high-use facility. Visit www.hbf.com for additional high performance product information.

High Performance Options:
- Acrylic Solid Surface Tops
- Durable Wood Finishes

### Veneer and Finishes

Wood owes its inherent beauty to variations in color, grain, and texture; therefore, these variations are not considered defects. Due to the natural color and grain variances of wood the final finish color, texture and grain may vary from one furniture piece to another even though they are finished at the same time. Exposure to light and the aging process will cause changes in surface color of natural wood products. Light finishes on wood products do not mask the natural characteristics of wood. HBF does not guarantee the exact matching of grain, pattern and color.

An upcharge of 5% Net per unit for occasional tables, with a minimum upcharge of $500 Net per order, will apply for any custom wood finish.

Refer to the following page for product material options.
