

Grinder Tips

...for Tub and Horizontal Machines

Premium replacement parts for your tub or horizontal grinder

KenCoat™

Kennametal carbide overlay application technology

- Less downtime.
- Provides up to 50% greater wear life versus competitive embedded-style tips.
- Holds original shape longer to provide better and more consistent performance.

KenCast™

Best for asphalt, shingle, and other extreme applications

- Superior wear and fracture resistance.
- Combines the hardness of Kennametal cemented tungsten carbide with the toughness of air-hardening steel.

Brazed-On Carbide

Unmatched in the industry

- Produces more material at day's end.
- Premier-quality macrocrystalline tungsten carbide inserts, brazed onto an all-steel body; stay securely in place.
- Ideal for grinding big, clean wood material.

Grinder Tips

Kennametal Inc. encourages the safe use of its products.

To help avoid personal injury or damage to tools, please:

- Wear approved personal protection equipment, including eye and ear protection, steel-toed shoes, hard hat, and vest.
- Make sure tools are properly seated and securely retained.
- Do not strike tools with metal objects – carbide tips could shatter.
- Exercise care when removing tools.
- Inspect tools daily. Do not use dull, cracked, burred, or bent tools.
- Operate all machines with safety in mind.
- Stand clear of machines in use, and make sure protective guards are in place.
- Do not change tools when the drum is moving or still engaged.

**Model
Beast**

Part/Order Number

Model
950 / 1000 / 1100 / 1200 / 2600 / 3600

- Part/Order Number**
1931517
- 2-bolt – 1-5/16" on centers
 - 2" x 3.5"
 - 6-side KenCoat™ overlay
 - 1.5" mounted

Model
1100 / 1200 / 3600

- Part/Order Number**
1323300
- 2-bolt – 1-5/16" on centers
 - 2" x 3.5"
 - KenCast™ technology
 - 1.5" mounted

Model
1200

- Part/Order Number**
3384637
- 2-bolt – 1-1/2" on centers
 - 2.7" x 3.4"
 - 6-side KenCoat overlay
 - flat back

Model
1200XL / 1250 / 1300 / 3800 / 4600XL

- Part/Order Number**
1855230
- 2-bolt – 1-11/16" on centers
 - 2.8" x 4.8"
 - 6-side KenCoat overlay with rails

Model
1200XL / 1250 / 1300 / 3800 / 4600XL

- Part/Order Number**
3134428
- 2-bolt – 1-11/16" on centers
 - 3" x 5.1"
 - 8-side KenCoat overlay

Model
1200XL / 1250 / 1300 / 3800 / 4600XL

- Part/Order Number**
3330563
- 2-bolt – 1-11/16" on centers
 - 3" x 4.8"
 - KenCast technology solid face (threaded 3/4"-16 lugs in back)

Model
1200XL / 1250 / 1300 / 3800 / 4600XL

- Part/Order Number**
4158315
- 2-bolt – 1-11/16" on centers
 - 3.3" x 5"
 - KenCast technology with wraparound hardfacing

Model
1200XL / 1250 / 1300 / 4600XL

- Part/Order Number**
2437966 Ripper
- 2-bolt – 1-11/16" on centers
 - 2.8" x 5.1"
 - impact-resistant

Model
1400 / 1500

- Part/Order Number**
6065225
- 2-bolt – 2" on centers
 - 2.8" x 5.3"
 - 6-side KenCoat overlay
 - flat back

KenCast™

Any Wear. Any Time.

Wear.

One small word that describes a big problem for most equipment operators. Perhaps nothing is more troublesome, or more damaging, to virtually any equipment in any application, than wear. You experience it every day, and over time, it can add up to hefty equipment repair and replacement costs.

We understand wear. And we understand how important it is to you and your business to prevent wear damage to your equipment. That's why we developed KenCast™.

Whether you're working above ground or underground, on the road or in the pit, crushing rock or pushing snow...no matter what your application or equipment... Kennametal has (or can custom-make) a KenCast part to fit your particular wear problem!

KenCast™ Wear Protection

KenCast is a unique wear protection material that can significantly increase tool life — and productivity.

Product Versatility

KenCast is exceptionally versatile. It can fit nearly any machine for nearly any application, with only a few limitations on size and shape. It is easily welded or attached mechanically into position.

Standard part sizes and shapes available:

- Thickness – minimum 1/4" to a maximum 8"
- Width – up to maximum 20"
- Length – up to maximum of 20"

This new grinder hammer tip made with KenCast is used in horizontal and tub grinders in the recycling industry. As you can see, the outer surface is smooth prior to use. Cut-away shows the KenCast carbide particles embedded in the steel.

This is a KenCast grinder hammer tip after 40 hours of use in a highly abrasive asphalt shingle recycling application. Notice that the prominent carbide particles have sustained only moderate wear. This particular hammer tip continued grinding for a total of 90 hours, outperforming and lasting up to 10 times longer than competitive tools!

Model
TG-400 / 525

Part/Order Number **2034217** (shown) with Hammer Body

- 1-bolt
- 3" x 3"
- 8-side KenCoat™ overlay with face and sides

1611573

- 1-bolt
- 3" x 3"
- 6-side KenCoat overlay with face

Model
TG-400 / 525

Part/Order Number **2264823** Ripper (shown) with Hammer Body

- 1-bolt
- 2.7" x 2.7"
- impact-resistant
- 10 carbide teeth

2254784 Ripper

- for super-aggressive cutting
- 1-bolt
- 2.7" x 2.7"
- impact-resistant
- 6 carbide teeth

Model
TG-5000 / 9000 / HG-365 / 525 / 4000 / 6000

- 1-bolt
- 3" x 3.7"
- impact-resistant
- with rails

Model
TG-9000 / HG-365 / 525 / 4000 / 6000

Part/Order Number **1985773** with Duplex Drum

- 1-bolt
- 3.3" x 3.8"
- KenCast technology
- flat back

Model
TG-5000 / HG-200

Part/Order Number **1931517** with Duplex Drum

- 2-bolt – 1-5/16" on centers
- 2" x 3.5"
- 6-side KenCoat overlay
- 1.5" mounted

Model
TG / HG

Part/Order Number **1323300** with Duplex Drum

- 2-bolt – 1-5/16" on centers
- 2" x 3.5"
- KenCast technology
- 1.5" mounted

“Kennametal carbide grinder tips have sliced our tool-replacement costs by almost 70%.”

Terry Kane, Owner
Georgia Mountain Grinding & Recycling
Blairsville, Georgia

FAST DELIVERY

Order from stock by Noon EST for same-day shipment.
Call Customer Service at 800 458 3608 or 866 692 5434.

Packer

Part/Order Number
1010910 C3R Tool
 • for soft to medium or abrasive cutting conditions

Packer

Part/Order Number
1012278 C10 Block
 • for light-duty applications
 • slim-profile design

Packer

Part/Order Number
1012120 C3R Retainer
 • lock ring

Model
Forestry Mowers

Part/Order Number
1785758
 • mower tip assembly
 • impact-resistant

Model
4000

ZEHR

Part/Order Number
2271876
 • 2-bolt – 2" on centers
 • 2.8" x 5.3"
 • 6-side
 KenCoat™ overlay
 • flat back

Weld-On Accessories

Part/Order Number
2882750 Shark Tooth
 • for drum rotors
 • prevents material build-up on drum
 • impact-resistant

Weld-On Accessories

Part/Order Number
2492967 Shark Tooth
 • for drum rotors
 • for severe applications
 • prevents material build-up on drum
 • KenCast™ technology

Model
4000

ZEHR

Part/Order Number
3127912 Ripper
 • 2-bolt – 2" on centers
 • 2.7" x 5.1"
 • impact-resistant
 • flat back

Weld-on wear protection

ELIMINATES COSTLY HARDFACING

KenCast is an exclusive Kennametal product. We take tungsten carbide particles of varying sizes and metallurgically bond them to air-hardened steel. This combination of steel's practicality with carbide's toughness creates a wear part that withstands extremely abrasive and high-impact applications.

KenCast helps equipment last longer... in many cases, a lot longer. That means you save money with reduced downtime, repair costs, and inventory.
