

Engineering Your
Competitive Edge

IN ABRASIVE FLOW PRODUCTS

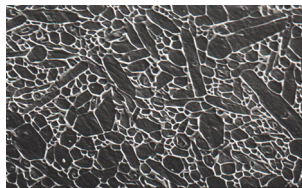

XL Performance Nozzle Increased Production Without Cost

BP200 SIALON

- Increased abrasive velocity
- Increased production
- Reduced labor
- Lightweight/minimize fatigue
- Standard air requirements
- Lower compressor fuel costs

Microstructure of BP200
Elongated grains provide increased toughness over competitive lightweight ceramic nozzles

SN159-6XL vs. TLVE-6P

Part No.	Description / Model	Bore Size	Thread Style
BJ25464C	SN159-6XL Performance	3/8"	1-1/4" NPSM
BJ25464F	SN159-650XL Performance	3/8"	50MM
BJ24243C	SN159-8XL Performance	1/2"	1-1/4" NPSM
BJ24243H	SN159-850XL Performance	1/2"	50MM

Kennametal is setting the standard in abrasive nozzle technology!

Let us prove it.
