Kevy™ Touch-to-Open’ Smart Lock

Kwikset is a trademark of Spectrum Brands, Inc. © 2016 Spectrum Brands, Inc., Lake Forest, CA 92610 • 6200 E 44W
Open your world with the latest Touch-to-Open™ Kevo smart lock powered by your smartphone and Bluetooth. Fumbling with your keys is now a thing of the past.

2nd Generation

How Is Kevo 2nd Generation Different?

What are the most notable enhancements with the 2nd Generation of Kevo?
- Touch-to-Open™
- Industry’s first in-app and interactive installation experience
- Dramatically reduced interior size
- All-metal interior for improved durability
- BHMA Certified Grade 2
- UL 20 min Fire Rating

How small is the Kevo 2nd gen interior compared to Kevo 1st gen interior?
Its interior size is dramatically reduced. It is approximately 35% smaller than the 1st gen interior.

Do you use plastic for the interior housing?
The 2nd gen uses a sleek, metal housing. The black plastic window is required for Bluetooth.

Do you have to calibrate Kevo 2nd gen?
No, you don’t. Kevo 2nd gen is smart and calibrated itself. It identifies and remembers where you keep your device. The Kevo Touch-To-Open experience gets better over time.

How can I give others access to my Kevo 2nd generation lock?
You can provide a standard key, a Kevo fob, or send an eKey to anyone you wish to have access to your lock.

Is Kevo 2nd gen compatible with the Kevo Plus Gateway?
Yes. The Gateway is compatible with both lock generations of Kevo.

Is Kevo 2nd gen compatible with my Kevo Fobs?
Yes. It is compatible with the Kevo Fobs.

Is Kevo 2nd gen compatible with Android and other Smartphones?
The Kevo app is available for iPhones 4S or higher and select Android 5.0 Lollipop devices. Please check here to see your device is compatible.

How secure is Kevo, 2nd generation lock?
Kevo 2nd gen is extremely secure both digitally and mechanically. Kevo uses multiple levels of encryption to increase digital security, and it is continually reviewed by industry-leading digital security experts.

What is Kevo’s battery life?
The Kevo lock provides multiple low battery indicators and plenty of warnings if you need to change the batteries, including notifications inside the Kevo mobile app. In the event that the batteries are not replaced in time, you will need to use your standard key to unlock the door.

How secure is my Kevo lock?
Kevo is extremely secure, both digitally and mechanically. Kevo uses multiple levels of encryption to increase digital security, and it is continually reviewed by industry-leading digital security experts. The lock also contains Kwikset’s patented SmartKey technology, which is tested to the most stringent lock picking, bumping, and physical security standards.

What is the most notable enhancement with the 2nd Generation?
- UL 20 min Fire Rating
- All-metal interior for improved durability
- Dramatically reduced interior size
- Industry’s first in-app and interactive installation experience
- Touch-to-Open™ convenience

How do I install my Kevo lock?
A Philips head screwdriver and 4 AA batteries (included) are all that is required to install a Kevo 2nd gen lock.

What do I need to install my Kevo lock?
A Philips head screwdriver and 4 AA batteries (included) are all that is required to install a Kevo lock.

If my phone or fob is inside the house and someone touches the lock from the outside, will the door unlock?
The Kevo lock has a unique and patent-pending feature to detect if the authorized user is inside or outside of the house. Performing the calibration process on your fob or phone will test this feature and help fine tune Kevo’s sensor, so there will be no accidental unlocking from an unauthorized user outside.

Does the Kevo mobile app have to be open when I unlock my Kevo?
After you launch and sign in to the Kevo mobile app for the first time, it will continue to run in the background of your phone. You don’t have to open the app every time you wish to unlock your door. When you touch the lock, it will be able to communicate with your phone even when it is locked and stored in your pocket or purse.

Can I use both phones and fobs with my Kevo lock?
You can use a mix of phones and fobs with your lock.

What is an eKey and how is it used?
An eKey is an encrypted electronic key that can be sent to friends and family with Kevo-compatible Smartphones. It works just like your key - you can give it to someone temporarily, and its notifications in addition to being able to send, edit, or delete ekeys with the exception of the Owner.

Anytime eKey: Are able to lock or unlock the lock.

Guest eKey: Expires 24 hours after the Guest eKey has been sent, regardless if used or not used.

Scheduled eKey: Pre-set time constraints
