Easily access the Property Manager Cylinder:

1. Insert the SmartKey Tool into the slot at bottom of cylinder cover
2. Rotate cover clockwise to expose the Property Manager Cylinder.
3. Now you have access to the Property Manager Cylinder. Use tool to rotate counter-clockwise back to user’s keyway when appropriate.

Key Control

- Two separate cylinders, Tenant & Property Manager, allows for more tenant key cuts than a traditional master key system
- New proprietary keyway adds security - the tenant key will never fit into the Property Manager Cylinder
- The Property Manager Cylinder is concealed when not in use to avoid tenant confusion

Increased Efficiency

- Re-key the lock without removing from the door
- Save time & money by re-keying yourself
- Maintain key control throughout tenant and employee turnover

Perfect for multi-family dwellings, student housing, assisted living & rental properties.

## Function

**816 Key Control Deadbolt**

Deadbolt operated by key outside and thumb turn inside.

**817 UL Key Control Deadbolt**

Deadbolt operated by key outside and thumb turn inside.

## Dimensions

![Dimensions Diagram]

- 2 3/4" x 3"
- 1/16"

## Finishes

- Polished Chrome 26
- Satin Nickel 15
- Matte Black 514

## How to re-key in seconds

1. Insert current key and rotate it 90° clockwise.
2. Fully insert SmartKey tool. Remove tool and remove current key.
3. Fully insert new key and rotate 180°. Rotate back to starting position and remove key. Your lock is now re-keyed!
