KEY CONTROL™ D E A D B O L T

THE SMART ALTERNATIVE TO MASTER KEYING IN A NEW CONTEMPORARY STYLE

Re-keying & managing a traditional master key system is labor intensive, time consuming & costly. With the first & only two cylinder Key Control Deadbolt, either cylinder can be re-keyed in seconds, without removing the lock from the door.

Key Control

- Two separate cylinders, Tenant & Property Manager, allows for more tenant key cuts than a traditional master key system
- New proprietary keyway adds security - the tenant key will never fit into the Property Manager Cylinder
- The Property Manager Cylinder is concealed when not in use to avoid tenant confusion

Increased Efficiency

- Re-key the lock without removing from the door
- Save time & money by re-keying yourself
- Maintain key control throughout tenant and employee turnover

Perfect for multi-family dwellings, student housing, assisted living & rental properties.
